

Pool Table Movers Set Up Shop In Los Angeles

September 05, 2023

September 05, 2023 - PRESSADVANTAGE -

Trusted Billiards LA is pleased to announce the grand opening of their Los Angeles branch. They will now be providing top quality billiard services across the entirety of LA County. They offer pool table moving, pool table repair, pool table re-felting, and more. The new billiard service in Los Angeles has already begun to build a reputation for excellent customer service, and the company is set to become one of the top providers in Los Angeles.

"We are your premier choice for pool table moving services in the Greater Los Angeles area," says Trusted Billiards LA. "Our experienced and knowledgeable pool table movers have the tools and skill required to safely and efficiently move all kinds (manufacturers) of pool tables regardless of size and weight. We consistently provide top quality service, honest pricing (rates) and fast response times to make sure that you are completely satisfied and get great value for your hard-earned money. With our dependable and professional team, we guarantee workmanship with every job."

At Trusted Billiards, they understand how important it is to clients that their pool tables are handled in a careful manner. Pool tables are relatively pricey to own, and this is why Trusted Billiards LA makes it a point to offer consistently reliable, professional moving services that are specially geared for this class of item. A less well-trained mover is likely to damage a pool table while attempting to get it to a new location, so it is

important to ensure that anyone who handles a table knows what they are doing.

The LA pool table moving company makes sure that every client's pool table is moved promptly and with care. This means that a client can always be confident that their property is in the best of hands, and a move will also be a stress-free experience no matter how far off the pool table's ultimate destination may be. They pay attention to even the smallest details and draw on knowledge gained from years of experience to make sure every job goes smoothly.

There are a number of reasons why Trusted Billiards is already among the top pool table moving companies in Los Angeles despite having opened shop recently. Experience is one major factor that sets the company apart, for instance, and the team behind Trusted Billiards has a decade of it. Access to the correct tools is important as well, and Trusted Billiards LA has every tool that discerning clients would expect a top pool table mover to have. They use specialized tools and techniques to ensure a fast, easy move every time.

Lastly, Trusted Billiards understands that the value of a pool table is represented by more than just a piece of furniture. Every pool table is a repository of good memories – a valuable entertainment piece around which people spend hours with family and friends. This is why it is important that only experienced professionals handle the relocation of such precious cargo. Visit Trusted Billiards on Facebook to book a move.

In addition to their pool table moving services, Trusted Billiards offers repairs and re-felting. The company's team of technicians can match or replace the material on any pool table, and this means that every table they handle will be returned to the client in virtually the same shape as when it was new.

The company says, "We know how nice it is to have a pool table in your home that looks and plays great, and we're here to help make sure yours does just that. We are the best and most knowledgeable pool table repair service that Los Angeles, CA has to offer. Using only the best materials, tools, and techniques, we'll restore your pool table to its original condition in no time. Our repair services include replacing damaged pieces slate and services/repairs, such as recovering your pool table with new felt, replacing worn out pockets and replacing rubber bumpers that may not have the bounce/rebound that they once had. So, if you're searching for an expert pool table repair service, look no further."

For more information, clients may find Trusted Billiards on LinkedIn. The company is active on several social media platforms.
