

Home Builder On The Sunshine Coast, Qld Celebrates Awards

December 17, 2015

December 17, 2015 - PRESSADVANTAGE -

Ryan Designer Homes, a company in Maroochydore, Queensland, Australia, and possibly the best builder Sunshine Coast QLD has to offer, is proud to announce that they have been awarded the Queensland Master Builders best low-rise multi residential townhome state award. This award is given for buildings below three stories high. The award was handed to them at the recent Queensland Master Builders award night.

"We are so happy to have won this award," says Petrina Ryan, founder of Ryan Designer Homes. "It is a true testament to the hard work and dedication of everybody on our team, and also to the loyalty, trust and faith of our customers. This award really belongs to all of us."

Ryan Designer Homes is no stranger to such awards. This year, they have also won the Home Industry Associations Best Villa Development in Townsville award. This further demonstrates just how high quality their overall work is, and how happy people have been with the homes they have been provided. Competition in these areas of awards is very high. It is for good reason, therefore, that they are known as the best home builder Sunshine Coast QLD has to offer.

This year is a year of celebrations and innovations for the company. Not only have they won the two awards mentioned, they are also celebrating the launch of their brand new website, which is fully mobile responsive. This website showcases stunning designs, past building projects and details about the more than 30 awards that the company has won since its founding.

One of the reasons why the company has won awards as being the best home designs Sunshine Coast QLD has to offer is because of their amazing testimonials. "I have just had an extension to our house for my beauty salon 'Stacey's Beauty Touch'," says Stacey Richardson. "I'm so happy with the way Ryan Designer Homes helped us through each and every stage. Every part of the process right from concept to completion has been very professional. Thank you Pat and Petrina."

The company is looking forward to many more years of excellent service.
