

## **Dr. Mark Hickman Is Helping Patients Reverse A Vasectomy Affordably And With A High Success Rate**

*September 12, 2023*

New Braunfels, TX - September 12, 2023 - PRESSADVANTAGE -

Dr. Mark Hickman from Microsurgical Vasectomy Reversals of New Braunfels, Texas, is on a mission to make vasectomy reversals more affordable for American men and families.

As a highly skilled microsurgeon, Dr. Hickman has performed thousands of successful vasectomy reversals over the years leading to thousands of births. In fact, Dr. Hickman has used his years of experience in microsurgical procedures to make vasectomy reversals safer and more effective for his patients.

"I am a man of God," says Dr. Hickman, "and I consider it my duty to use my talents in the field of microsurgery to correct, what I believe, is a gross misrepresentation of the vasectomy procedure. While the government and other institutions champion vasectomies as a method of family planning, the procedure has several side effects that don't get paid the attention they deserve in the discourse. Through my conversations with thousands of patients, I have learned the true extent to which vasectomies cripple men - by taking away their God-given gift of being able to bring a new life into this world. My surgical practice, then,

is my way of changing this grave imbalance.?

Dr. Mark Hickman graduated with a medical degree at just 23 years old from the University of Texas Medical Branch in Galveston. Following his residency, he learned about microsurgery from Plastic and Reconstructive surgeons and immediately recognized its potential to revolutionize medicine. So, he spent the next several decades learning and mastering the field.

Today, Dr. Hickman is regarded as an early pioneer in the field of microsurgery after having invented several surgical instruments, being awarded a US patent, and being recognized as a contributor to several other important minimally invasive patents. He also teaches his minimally invasive techniques to other vasectomy reversal surgeons. His efforts have made the vasectomy reversal procedure safer and cheaper and increased its success rate.

Dr. Hickman's work is very closely tied to his faith as a Christian man. He is an active member of his church and is involved with and passionate about the Men's ACTS Retreat Ministry. He also currently serves on the Apostolate Board for the North American Province of the Missionaries of the Holy Family and on the Board of Directors of TIPHER (The Institute for Public Education, Health, and Research). He also served the nation in Operation Desert Storm aboard the hospital ship USNS Mercy.

Several of Dr. Hickman's patients have thanked him repeatedly for helping them conceive when all hope was lost. The clinic even boasts a stellar overall rating of 4.8 out of 5.0 on its Google Business Profile from over 70 reviews in which patients talk about its helpful and resourceful staff members, the affordability of the vasectomy reversal procedure, and Dr. Hickman's assured guidance throughout the process.

One patient writes, "My husband and I flew from TN to see Dr. Hickman back in April 2021. My husband had his vasectomy for about 10 years. Although we have not been successful, I cannot say enough wonderful things about Dr. Hickman and his staff. He was kind, and patient, he prayed with us. Just a wonderful man of God! We are trusting in our Redeemer & continuing to pray for our little one to come in His time. Thank you to Dr. Hickman & his staff."

Another patient thanked Dr. Hickman by saying, "My husband and I flew to see Dr. Hickman all the way from NE FL after he had his vasectomy for 7 years! We reversed in 2020 and I'm currently 9 weeks pregnant! Highly recommend him and his team. We are so grateful!?"

Dr. Hickman offers two all-inclusive affordable options. The microsurgical vasectomy reversal cost option of \$3,300 includes local anesthesia and an oral sedative. The \$4,200 offer is performed under IV sedation and is administered by a Board Certified Anesthesiologist. Both microsurgical options are all-inclusive with no hidden fees.

Readers can contact Microsurgical Vasectomy Reversals by Dr. Mark Hickman at (830) 660-0600 for inquiries about the cost to reverse a vasectomy or to book an appointment.
