

Noworriesmate Unveils New Apple Watch Stand Bundle Product on Amazon

December 14, 2015

December 14, 2015 - PRESSADVANTAGE -

Entering a crowded market of hundreds of competing Apple Watch Stands and iWatch accessories products, Noworriesmate announced today that its newest product, the Noworriesmate Apple Watch & iPhone Charging Stand, began selling on Amazon.com.

The Company's Founder & General Partner, Muchtar Salzmänn, revealed that it created a special Premium Bonus Edition bundle pack for wide-spread retail sales in time for the holiday shopping season. In fact, Mr. Salzmänn stated, "we are the only leading manufacturer of this style of iWatch charging stand that is bundling the stand, which also supports charging an iPhone at the same time, with other high value accessories."

Seeking to enhance functionality and value, the Noworriesmate Apple Watch & iPhone Charging Stand, Premium Bonus Edition, is an elegant, minimalist design stand made of highly polished brushed aluminum, that also contains a separate arm on its side to hang the customer's iPhone. "This dual purpose design is very popular with our customers," said Mr. Salzmänn, "and we added more value by including three bonus accessories."

The Bonus Edition includes a free 3 foot premium 8-pin Lightning Charge and Sync Cable for use with the customers? iPhone, a micro-fiber cleaning cloth, and a cable management clip that neatly guides the charger cables from both devices out the back end of the stand in a manner that suits each users unique workplace set up.

?By including a free premium 8-pin Lightning charge cable and the other two accessories, we have combined huge value and multi-functional convenience in one low-priced package,? added Richard Mathias, General Partner and Marketing Director of the Company. ?Entering the crowded iWatch Accessories and Apple Watch market on Amazon with a single stand like the other 400 available would be silly and would not offer value to our customers.? ?Instead,? Mr. Mathias concluded, ?we designed a bundle of accessories around the iWatch Charging Stand that our customers told us would help them the most, and offered it at the same low price as most single stands.?

The Noworriesmate Apple Watch & iPhone Charging Stand, Premium Bonus Edition, is entering its second week on Amazon and is rated the Number One New Product Release in Smart Phone Chargers and Cables.

Noworriesmate, LLC, is a Santa Rosa, California, based on-line retailer offering high quality charge and sync cables, car chargers, travel kits, and other smart phone accessories, including its new Apple Watch & iPhone Charging Stand, Premium Bonus Edition.
