

Car Hire Company Offering Services in Perth Launches New Website

November 30, 2023

November 30, 2023 - PRESSADVANTAGE -

Ace Rent A Car, a company based in Victoria Park, Perth, Western Australia, that provides car rental services in Perth, has recently launched a new website. With the new website, the company that provides hassle-free rentals expects site visitors to find it much easier to book a a car rental online. Furthermore, the website redesign assures that it is mobile responsive, which means the website will display correctly on the smaller screens of smartphones and tablets.

Ajay Bakshi from Ace Rent A Car in Perth says, "We offer a diverse fleet of modern vehicles to suit your needs ? whether you're travelling solo or in a large group. It doesn't matter if you're setting off on a short adventure or staying for a long time, our flexible rental options enable you to hire a suitable vehicle at competitive rates. We pride ourselves on the affordability of our rental fleet and offering convenience to customers by being located close to Perth's metropolitan city."

Ace Rent A Car wants to point out that rather than having their customers pay a high rental cost like the

airport-based companies, they have arranged collection of any car from their rental fleet just moments from the boundaries of Perth Airport. In addition to this, they also offer a complimentary, 24/7 on-demand pickup and drop facility from the airport to their location close to the Perth airport.

The car hire company advises customers to follow a number of steps for the pickup process for the international or domestic airport. First of all, the customer either books online or by phone and choose a pickup/ drop off point as Perth Airport, international or domestic. Second, the customer will need to inform them about the flight number and terminal number if they know it, or at least the ETA of their flight. Third, once the booking has been confirmed, customers will receive a confirmation and informed about the process for calling the shuttle for pickup. Fourth, the customer calls the shuttle after picking up the luggage. Fifth, the shuttle picks up the customer and brings them to the Airport Precinct Office. Sixth, the customer accomplishes the paperwork and then drives off the rental car.

Airport pickups and drop offs are coordinated through their Redcliffe location and these will be provided on availability. Customers are advised to check particularly about pickups/drops during the time of booking. It is important to note that in the event that the customer misses the airport shuttle for whatever reason, a repeat trip is not possible. It is also important to note that customers should only call for the shuttle only after getting their luggage. And they need to follow the instructions provided by the telephone operator. Since Redcliffe is not an airport location, the complimentary shuttle is offered for customer convenience and will depend upon availability.

Founded in 1983, Ace Rent A Car in Perth is focused on providing the most affordable car rental in the area. They have a wide array of new vehicles, such as compact cars, family saloons, utes, SUV, minibuses, and commercial vans. Whether the client is travelling alone or in a big group, they will likely find a vehicle for hire that is perfect for their specific needs. Ajay Bakshi says, "We have been providing "value for money" car rental in Perth for more than 30 years and we have served thousands of customers from all over the world. If you are visiting the city from overseas and you need a reliable car for a week or two, please do not hesitate to get in touch and ask for our assistance when choosing your vehicle. With our local knowledge and experience, we can answer any questions you may have about tourist hotspots and recommend a car rental deal that meets all of your requirements at an affordable price."

Those who are looking for a dependable but affordable airport car hire service in Perth can check out the Ace Rent A Car website or contact them on the telephone or through email.
