

Pro Pad Inc. Launches Custom Motorcycle Flags

December 21, 2015

December 21, 2015 - PRESSADVANTAGE -

Mooresville, NC business Pro Pad Inc. is proud to announce that they now offer custom motorcycle flags. These come in two different sizes, which are 6"x9" or 10"x15". The flags are designed using a 4 color process. Additionally, a minimum order of just five units is required and the company does not charge any artwork fees. Unsurprisingly, the flags are already being positively reviewed. Full details are available through <http://www.thepropad.com/custom-flags/>.

Mike Enzwiler from Pro Pad Inc. says: "Our custom motorcycle flags allow bikers to show their pride, in whatever way they want. They can fly their club's colors, indicate their political preference or anything else. The only thing we do not accept is copyrighted work, or professional or college sports artwork. We're happy to see so many people already using our service for their own motorcycle flags."

The flags are 100% cut, printed and sewn in the USA, which is something that customers have greatly appreciated. The art work will be printed on a white material, although it is possible to indicate a preferred background color when ordering as well. Pantone PMS color is used for this. All flags are made of a UV coated poplin, which is fully machine washable. It is a heavy duty material that is perfect for outdoor durability, not in the least because each flag is double sided and double stitched.

Those who have used the service have been very happy with the results: "Great product," says Steve G. "Pro Pad did an excellent job on my custom flags. From the very beginning they were great on communication, sending me a file review and approval since my original artwork file was a bit too small for detail and reproduction. When my flags arrived, they each came packaged separately - what a nice touch. The technical staff was very friendly and helpful. Whenever my order was ready it was shipped out quickly and arrived securely packaged."

Customers are encouraged to visit the company's website to start working on their own custom flags. It should take only a few minutes to complete the design and the company offers a lead time of between just four and six weeks for custom designs.
