

Independent Operator Hits New Standards In Car Paint Protection In Melbourne

December 15, 2015

December 15, 2015 - PRESSADVANTAGE -

Melbourne, Australia -- When it comes to protecting the value of your automotive investment, one of the first things that a potential customer will notice is the paintwork, so it makes perfect sense to protect your car's most valuable asset ? its good looks.

The owner and operator of Melbourne's Fine Shine Detailing, Mr. Dimitros Mandoudis is one such minded individual who has been operating for over 15 years, delivering first class quality car to Melbourne motoring enthusiasts and car care customers.

?It's the first details people notice when inspecting secondhand cars,? said Mr. Mandoudis.

?With the quality of paint protection including nano technology, is is possible to ensure that your automotive investment remains sound, across the years of vehicle ownership,? he said.

With many satisfied customers recommending ?Jimmy? as he is affectionately called, his business is doing better than ever. Not only is Fine Shine Detailing a first class car paint protection Melbourne based company,

but it also offers a variety of car detailing services.

Services such as paint protection, interior detailing and paint correction are all available from his Melbourne based facility. Just viewing the gallery of fine automotive marques, demonstrates the calibre of some of Mr. Mandoudis's clientele.

About Fine Shine Detailing: At fine shine they pride themselves with over 15 years experience offering the best car detailing in Melbourne.

They strive to exceed expectations delivering a very high premium service to their customers to build a life long relationship of trust. They only use the highest quality and best paint correction polishes and paint protection coatings and waxes, making sure customers drive away with the best possible shine and durable protection their vehicle deserves.

By offering flexible car detailing and paint correction services to suit their clients needs, they ensure satisfaction every time. They are known for treating every vehicle as if it was their own meticulously inspecting the vehicles paint work with their state of the art paint thickness monitoring guage giving them the best indication of the health of a car's paint work which helps determine the level of paint correction required to achieve the best possible results.
