

Dr. Mark Hickman From Microsurgical Vasectomy Reversals Is Helping Answer The Question - Can A Vasectomy Be Reversed?

September 27, 2023

New Braunfels, TX - September 27, 2023 - PRESSADVANTAGE -

Dr. Mark Hickman, founder of Microsurgical Vasectomy Reversals in New Braunfels, Texas, is helping men and families across the United States answer the question - is it possible to reverse a vasectomy.

Using his years of mastery over the field of microsurgery, Dr. Mark Hickman is working to make vasectomy reversals more affordable and increase their success rate. He focuses his entire practice on the successful reversals of vasectomies and has, to date, in his 26-year-long career, performed thousands of successful vas reversals and contributed to thousands of births and happy new parents.

?I am a man of God,? Dr. Hickman says. ?I believe the dangers of vasectomy procedures are being swept under the rug under the pretense of family planning initiatives, leaving hundreds of thousands of men robbed of their God-given gift to be able to bring a new life into this world. So, my life?s mission is to help these men and families who have been led astray and to reintroduce them to the joys of parenthood once again.?

Dr. Hickman's track record speaks for itself. After receiving his medical degree at the tender age of 23, he went through extensive training in General Surgery Residence at the University of Texas for five additional years. It was at this time that he was introduced to microsurgery with Plastic and Reconstructive Surgeons and understood its potential to change medical procedures forever.

Soon, after beginning his private practice in New Braunfels, TX, he became an early pioneer of laparoscopic (minimally invasive telescopic) surgery. Today, he is credited with inventing several microsurgical instruments, has been awarded a US patent, and is recognized as a contributor to several other important minimally invasive patents. He is also often invited to teach his minimally invasive techniques to other surgeons across the country.

At Microsurgical Vasectomy Reversals, Dr. Hickman offers two all-inclusive affordable vasectomy reversal options. The microsurgical vasectomy reversal cost option of \$3,300 includes local anesthesia and an oral sedative. The \$4,200 offer is performed under IV sedation and is administered by a Board Certified Anesthesiologist. Both microsurgical options are all-inclusive with no hidden fees.

During the procedure, Dr. Hickman performs a microsurgical repair of the vas deferens with a powerful operating microscope and fine nylon suture that is much finer than a human hair. A typical repair requires 10-15 stitches. The goal is to create direct and careful alignment of the lumen of the two ends of the vas and a watertight closure for a higher success rate.

Thousands of families in the United States have benefitted from Dr. Hickman's services and they have let their gratefulness known in their gushing positive reviews. His clinic's Google Business Profile even boasts a stellar overall rating of 4.8 out of 5.0 from over 75 reviews.

One of these testimonials says, "I wanted to take a moment to say thank you. Last year my wife Ashley and I drove out from Tucson, AZ, for me to get a reversal after 10 years. We had hoped for the best but did not expect a miracle, especially right away. In fact, a week after my procedure, she had to have one of her ovaries and fallopian tubes removed due to a cyst. We were concerned, to say the least."

The patient continues, "During my procedure, you prayed over me with us and that meant the world to Ashley. Even with some worries early on, we felt if there was a chance, it was because of you. So all this being said, on December 28th, just 3 months after my surgery, we found out she was pregnant. And yesterday, we welcomed Keegan James Ellis into the world. So from all of us, we thank God for your skilled hands and knowledge in blessing us with our son."

Readers can find out more about Microsurgical Vasectomy Reversals by Dr. Mark Hickman by contacting the clinic at (830) 660-0600 for inquiries about the cost of vasectomy reversal or to book an appointment.
