

Autobahn Autoworx Is Offering High Quality Hard To Find, New And Used, VW Corrado Parts

October 05, 2023

October 05, 2023 - PRESSADVANTAGE -

Autobahn Autoworx, a Volkswagen performance and mechanic shop based in South Carolina, is offering buyers a range of new, used, and hard-to-find VW Corrado parts.

Launched in 1988, the Corrado is one of Volkswagen's most iconic vehicles. Based on the A2 platform, it arrived in two versions - a 1.8-liter 16-valve inline-four with 136 PS and a supercharged 1.8-liter eight-valve inline-four, branded as the G60, with 160 PS. Later, there were other versions with two new engines that were launched in 1992. The car superseded the company's Volkswagen Scirocco model and about 50,000 of them were sold in the United States.

"For those who love and admire the Volkswagen Corrado," says the spokesperson for Autobahn Autoworx, "getting new parts for replacements and repairs can be a tall order as the original was introduced over 35 years ago. At Autobahn Autoworx, we are your trusted specialists for Corrado parts. We make available high-quality Corrado G60 parts, Corrado SLC parts, and Corrado VR6 parts for you so that you can restore the same power and peak performance that the cars launched with over three decades ago."

Some of the most often searched for and bestselling Corrado parts at Autobahn Autoworx include the billet hood pin guides, VR6 SLC coolant hose kit, complete hood cable setup, hood cable, G60 ISV re-direct, parcel strap kit, radiator neck, billet hatch lift assist, thermostat housing, G60 coolant hose kit, body seal clips, hood cable horns/ends, hood cable retention clip, VR6 SLC upper radiator hose, and many more.

Autobahn Autoworx makes available a wide range of products for Corrado and other Volkswagen vehicle owners including the Scirocco. The product range includes hose kits, billet parts, keys, engine, bolt kits, used parts, Euro parts, suspension, and interior/safety. The company is an authorized dealer for companies such as ECS Tuning, Autotech, Wavetrac, Techtonics Tuning, UroTuning, Solowerks, SPA Turbo, Autopower, Air Lift, and more.

The company also offers several scheduled services for its customers from across the United States such as general maintenance and repair, mechanic services, new OEM/OE parts sales, aftermarket and performance part sales, motor swaps, suspension installs, performance work, track support, Vag Com diagnosis services, ECU tuning, and dyno services.

Autobahn Autoworx has received the support of the local South Carolina community as well as its customers from across the nation who turn to the company for reliable and affordable Corrado parts. The company boasts a perfect overall rating of 5.0 out of 5.0 on its Google Business Profile from over 60 reviews with customers praising the helpful nature of the company's representatives, the high-quality parts they make available, and the responsive customer service.

One reviewer says, "The man that owns and runs this is so amazing. Very knowledgeable and helpful with my VW build. I can't believe it's just him running the whole show. He does amazing and he got me my package in just 4 days after I waited 2 weeks from another place to get an inlet for my car. Plus, the product quality is very good! Super reasonable price especially considering other competitors! He is willing to help you with any problem you might have and answer questions as well if he has time. I will be ordering again and again from this company. You should too!?"

Another reviewer writes, "Will recommend Autoworx to anyone, especially in the VW Audi community. Travis was able to help me mount a tire, replace 4 TPMS sensors, and program them for me on a 2010 Audi A4 kind of last minute without any issues. Great customer service and he was able to answer all my questions I had regarding the work he was doing on my vehicle and gave me some great input for future plans I have in mind for my other projects. Great guy 10/10 would recommend and will definitely be back for future work."
