

Waterproof Homes Ltd Marks 23 Years of Excellence in Damp Proofing In Leeds

October 03, 2023

Derbyshire, England - October 03, 2023 - PRESSADVANTAGE -

Waterproof Homes Ltd, a property care and preservation company in Leeds, West Yorkshire, is thrilled to celebrate its 23rd anniversary.

As a trusted name in the construction and damp-proofing industry, since its establishment in the year 2000, the company is known for providing top-tier damp-proofing services in Leeds and surrounding areas. With over two decades of experience, Waterproof Homes Ltd has become a renowned leader in damp proofing, specializing in protecting homes and structures from moisture-related issues.

The company's success story is defined by its unwavering commitment to excellence, ensuring every client receives high-quality, lasting solutions for damp-related challenges. It has earned the trust of Leeds residents and businesses by consistently delivering effective damp-proofing solutions and exceptional customer service. Over the years, the company has stayed at the forefront of industry advancements, incorporating innovative techniques and materials to provide the best possible outcomes for its clients.

Company spokesperson Mathew Milner expressed gratitude, stating, "We are immensely proud to have

served the Leeds community for 23 years. Our journey has been defined by dedication, expertise, and the satisfaction of our valued clients. As we commemorate our anniversary, we look forward to continuing our mission of ensuring dry, secure, and comfortable homes and structures in Leeds.?

The full range of services offered by Watertight Homes includes damp-proofing, basement conversions, basement waterproofing, basement tanking, woodworm treatment, cavity wall ties, condensation, wet rot treatment, and timber preservation. The company provides services for a range of client projects, big or small, including for local authorities, architects, housing associations, and private homeowners in Harrogate, Manchester, Wakefield, Leeds, Yorkshire, and Huddersfield.

The company is extremely confident in its ability to deliver quality work and, likewise, offers a guarantee to all clients. The exceptional quality standards it follows have earned it a membership of the Construction Guarantee Protection Services. The membership requires the company to be independently checked for quality and training standards and health and safety practices. It also affords its clients an opportunity to apply for a further 10-year insurance-backed bonded guarantee, available by its suppliers at a small charge.

Watertight Homes has earned the admiration and respect of the homeowners it has served over the years. The company boasts a stellar overall rating of 4.7 out of 5.0 on its Google Business Profile from over 60 reviews with customers praising the timeliness and the quality of the work delivered, the company's professional crew members, and the helpful customer service.

A recent review says, "Quotes were gathered in from various damp companies and on the basis of cost and availability, Watertight won hands down. Not only this, but Mathew is exceptional too as are the two who showed up first thing this morning, did a great job, and left it spotless before giving me a tour of their excellent work. There is more work to be done on the first floor and I wouldn't hesitate to have Watertight back in to do this. Thank you, Mathew, and your team.?"

Another customer writes, "I've just had Watertight Homes in to do some work for me and I am really pleased with both the service and work. On the quote side, they took the time to explain all the work that needed to be done and why and gave me an immediate price which was great as you often need to wait for that info. Work-wise, they managed to squeeze me in (being a smallish job) very quickly which was really appreciated after the bad luck of the damp only showing up following the room in question being replastered! Matthew ensured all the work was done to a high standard and was finished in good time. Great job guys, happy to recommend you, and if I have any problems in the future, you'll be my first port of call!?"

Readers looking for the best damp proofing Leeds has to offer can get in touch with Watertight Homes at

07843 099 906 to inquire about its waterproofing services or to book an appointment.
