Alpha Therapeutics Is Offering High Quality CBG & CBD Products In Scottsdale, AZ

October 16, 2023

October 16, 2023 -
Alpha Therapeutics is offering customers a wide range of products that harness the healing benefits of CBD in Paradise Valley, AZ.

Starting with a mission to bring back transparency to the industry, founder Geoff Dada worked with doctors to formulate the company?s CBD and CBG products. Today, the company?s offerings are making a difference in the lives of thousands of its customers who rely on its CBD oils, topicals, and sleep formulations to take on every day with renewed vigor.

The company?s Extra Strength CBD Oil has been specially formulated to reduce chronic pain and anxiety. The plant-based anti-inflammatory oil calms pain and nerve receptors throughout the body. The bottle, available for $125, holds 30 servings for a total of 3000mg CBD and 1500mg CBG, which translates to 100mg CBD and 50mg CBG per serving. Customers who don?t need the extra strength can also opt for the Regular Strength CBD oil, available for $89, which offers 50mg CBD and 25mg CBG per serving.

Alpha Therapeutics also offers the Pain Stick and Healing Balm which are designed to provide pain relief to

isolated and localized joints and muscles respectively. They quickly absorb through the skin with the serving depending on the size of the application area. Available for $65, the Healing Balm and Pain Stick contain 2000mg CBD and 1000mg CBG per container.

Finally, for customers missing the luxury of a good night?s sleep, Alpha Therapeutics? Calm Sleep is a plant-based sedative that it claims is the perfect way to get a deep sleep without waking up groggy. Available for $59, it contains 30 servings per bottle for a total of 750mg CBN and 300mg CBG, which translates to 25mg CBN and 10mg CBG per serving.

To achieve its high-quality product output, Alpha Therapeutics harvests plants that have high amounts of CBD to bring its customers the plant?s natural, raw, and healthy benefits. The company?s broad spectrum products use raw plants instead of distillate which means the company does not filter or heat the plant as it changes its properties. It uses a CO2 extraction method instead to ensure the highest quality ingredients while preserving the ?entourage effect.?

The company?s products also contain terpenes, the building blocks of essential oils, that have demonstrated analgesic properties in clinical studies. Moreover, the cannabis flavonoids in Alpha Therapeutics? products have been shown to contain powerful antioxidants and anti-inflammatory properties. The other ingredients used by the company include natural products such as organic fractionated coconut oil and stevia.

Alpha Therapeutics has received several positive reviews from its customers for manufacturing effective CBD and CBG products that deliver great results. It even boasts a perfect 5.0 out of 5.0 rating on its Google Business Profile from 10 reviews.

One customer writes, ?As a Healthcare provider, I've been selling Alpha Therapeutics in my clinic for over 5 years. Geoff takes the time to listen and educate providers and takes feedback very seriously! He also 3rd party tests his product so you know it's pure product as I have many patients who drug test at work. I'll even have patients try their first dose in the office so they understand it's not THC. I've had patients wean off Ambien and pain medications using CBD.?

Another customer says, ?I have long been suffering from Peripheral Vascular Disease (PVD). Due to the restricted blood flow to my legs, my feet fall asleep and make keeping my balance very difficult causing even more stress to my legs which creates a great deal of pain. Nothing I have tried has given me any relief until Vanessa Lighty from Alpha Therapeutics introduced me to System 1000 Cannabidiol Oil. Since starting taking System 1000 the pain is virtually gone and my mobility has improved 100%. I would urge anyone with chronic pain or any other disorder to try this product, I promise it will help!!!?

Readers looking for the best CBG products Scottsdale has to offer are urged to visit Alpha Therapeutics? website or contact the company at support@MyAlphaCBD.com.
