

## **Cherry Hill Recovery Center Offers Drug & Alcohol Rehab in NJ**

*October 05, 2023*

Cherry Hill Township, New Jersey - October 05, 2023 - PRESSADVANTAGE -

Cherry Hill Recovery Center, which is located in Cherry Hill, NJ, is offering various kinds of services for addiction recovery, including partial hospitalization, intensive outpatient recovery services, as well as rehab placement and detox in New Jersey. They are committed to helping patients find detox services or inpatient drug rehab in the state. This is important because it offers the patient comprehensive support during the critical initial phase of recovery. Their dedicated team will apply their expertise and extensive network to help individuals go through the process of locating the appropriate detox program for them in New Jersey.

Dr. Jeffrey Simon, Chief Medical Officer for Cherry Hill Recovery Center, says, "We assist in identifying reputable detox facilities, coordinating admissions, and ensuring a seamless transition for individuals in need. Cherry Hill Recovery Center is here to guide individuals in their search for detoxification, supporting their journey towards a healthier and substance-free life."

Dr. Simon wants to point out that the success of detox in New Jersey depends on several factors. These include the specific person's motivation, the kind of support system provided, and continued commitment to recovery. Detox is the process where substances are eliminated from the body while managing the

uncomfortable and dangerous symptoms of withdrawal. It is vital to safely and effectively eliminate alcohol and drugs the body because suddenly stopping taking drugs or alcohol may lead to dangerous withdrawal symptoms. The detox process may last from a few days to several weeks, depending on a number of factors, such as the kind of substance that was abused, how long it was taken, and individual factors.

After the completion of the detox process, Cherry Hill Recovery Center provides inpatient rehab near me in New Jersey. Their experienced team will work closely with each patient and take into account their specific preferences, circumstances, and needs. They prioritize offering the necessary resources, support, and safe environment where they can begin their journey towards recovery. They offer six benefits, which are: a safe and supportive environment, professional medical and mental health support, structured treatment programs, peer support and community, a holistic approach, and aftercare and continued support.

Meanwhile, their intensive outpatient program (IOP) is designed to provide comprehensive care while taking into account the busy lives of New Jersey residents. In this program, they apply evidence-based therapies, such as individual counseling, cognitive-behavioral therapy (CBT), group therapy, and specialized interventions, to address the root causes of addiction and provide the patients with the power to attain lasting recovery.

Dr. Simon says, "At Cherry Hill Recovery Center, we understand the importance of insurance coverage for Intensive Outpatient Programs (IOP) for drug and alcohol addiction treatment in New Jersey. Many health insurance plans do provide coverage for addiction treatment services, including IOP. However, the extent of coverage can vary depending on your specific insurance policy and provider. We recommend contacting us directly or reviewing your insurance policy to understand the details of your coverage for addiction treatment, including IOP."

Cherry Hill Recovery Center was founded by Dr. Jeffrey Simon with the goal of providing high-quality drug and alcohol rehab services in New Jersey, while taking a holistic approach that takes into account the physical, psychological, and emotional aspects of the addiction. They have a team of experienced professionals such as established addiction specialists and licensed therapists and are committed to using evidence-based practices, compassionate care, and personalized treatment plans.

Dr. Jeffrey Simon is a highly skilled and triple trained physician who specializes in addiction treatment and psychiatry. He completed his general and adult psychiatry residency at the LSU/Ochsner Medical Center in New Orleans, which was after Hurricane Katrina struck. He then offered psychiatric care to victims during the crisis that lasted for a number of years. After finishing his residency, he went to the Mount Sinai Hospital in NY and Rutgers University/UMDNJ for his Fellowship in Child and Adolescent Psychiatry. He also completed a Fellowship in Addiction Medicine and Psychiatry at the Dartmouth-Geisel School of Medicine.

Those who are interested in inpatient and outpatient rehab can visit the Cherry Hill Recovery Center website or contact them through the telephone or via email.
