AdvantaVita Launches Moringa Oleifera Capsules

February 05, 2016

February 05, 2016 -
AdvantaVita, a health and nutrition company in Deerfield Beach, FL, is happy to announce that they have now launched their new Moringa Oleifera product. It is available through the Amazon marketplace and is available with a promotional launch discount for a limited time only. The product is already attracting a lot of interest.

AdvantaVita's Head of Marketing Chris Johnson says: "The Moringa oleifera product is basically health in one capsule. It contains over 90 essential nutrients that get to work in synergy with each other to support overall health. It helps to regular blood glucose levels, increase energy and improve mood. We love it and we just know you will too."

Moringa Oleifera is a plant that is very easy to cultivate. Every element of the plant, from its seed to its fruit, are edible and have been found to offer various health benefits. It is often commonly referred to as the 'miracle tree' or 'gift from God' because of its health benefits. It is native to the north west of India and the plant is also drought resistant because it can regulate its internal hydration. The name of the planet literally translates from Tamil and Telegu as 'never die'.

The plant has been termed a 'superfood' and this is harnessed and put into the Moringa oleifera capsules.

"Moringa oleifera helps to promote immunity and so may help prevent the development of a number of life threatening illnesses," explains Chris Johnson. "It's a potent antioxidant and has been used in traditional Ayurvedic medicine to treat at least 300 different conditions."

It is almost impossible to have the right level of nutrition through diet alone. Additionally, our typical diets now contain a lot of processed foods so that we run an increased risk of developing a number of conditions, many related to related to impairment of the immune system. The new AdvantaVita product contains nothing but pure, air-dried, organic Ecuadorian Moringa, with its 46 antioxidants and 36 anti-inflammatory agents, which are all natural.

The team at AdvantaVita learned first-hand about the power of nutrition and natural substances when faced with their own health challenges, and are now dedicated to putting this knowledge to use by supporting others committed to being proactive about their health. As Johnson says: "At AdvantaVita, we are committed to helping our customers achieve optimal health by providing the purest forms of nutrition. This means the very highest quality products sourced from the best ingredients. We are proud to be able to deliver a product that's organic with USDA certification, and made in the USA to GMP standards."

The product is 100% USDA certified organic, GMO free and made in the USA. It does not contain any fillers, preseratives or stearates.
