Sanpete Roofers Company Takes Pride in Five Star Reputation

October 10, 2023

October 10, 2023 -

Clean Cut Roofing & Siding, a company based in Mount Pleasant, Utah, that provides their services in the Sanpete County area takes pride in their five star reputation as the roofing contractor Sanpete residents can rely on. They currently have an overall rating 5.0 out of 5 stars on Google. They want to point out that what makes different from other similar roofing service providers in the area is that they are reliable, affordable, and honest. The areas they serve include: Sanpete County, Emery County, Carbon County, Sevier County, Juab County, and Millard County.

Vern Akauola, owner of Clean Cut Roofing & Siding, says, ?It?s not really a surprise that we have an overall rating of 5.0 stars right now. It's been our goal to hire and train only the best ?roofing specialists? and ?siding technicians? to deploy to our home exterior service areas. Furthermore, our goal is to look for experts that already know their way around the world of roofing and siding as well as individuals new to the world of construction that are eager to learn and excited to be part of a team that focuses on excellent work. As a result, of this dedication to bringing on board true craftsmen, that has helped us build a reputation as a top-tier Contractor in Sanpete County, a reputation that we are incredibly proud of and recognition that we hope to continue to build on.?

In a recent five star review, Mary Hill says, ?What a pleasure to have Clean Cut do our roofing job. They came out and looked at what needed to be done, showed pictures of what was going to be repaired, gave a quote and when the time for the job to start, Tanner did such a great job, explained questions I had about a few items. They also cleaned up the job site. When the job was done, I was assured that if we had any problems to contact them and they would fix it. Thank you for being such a great company to deal with.?

Clean Cut Roofing & Siding offers various roofing services and more. These include: commercial roofing repair, including shingle roofing and metal roofing projects; residential roofing inspection, repair, and installation; and siding installation or repair.

Meanwhile, as a contractor providing roofing Sanpete residents can depend on, they have chosen to focus on Malarkey Roofing Products due to a number of reasons. The most important reason is that they always support their products and their Certified Premium Contractors. Another key reason is that all Malarkey architectural and designer shingles include smog reducing granules, which allows them to be environmentally friendly. These granules are activated by the sun?s ultraviolet rays, which then breakdown the smog particles and convert them from a harmful gas to a more plant-usable form of nitrogen that remains on the roof until it is washed away by rain or snow.

With regards to metal roofing, Vern Akauola says, ?We offer two types of metal panels for residential roofing systems. Through our manufacturer they are known as 5R9 and Vintage Rib Panels. These panels have a 40 year paint system, that is the high quality Rb3 premium coil coating system and that provides a protection against weather. It?s exceptionally resistance to chalking and fading. The colors that are available are many & vibrant.?

Clean Cut Roofing & Siding delivers roofing services for residential and commercial properties in Sanpete County and neighboring areas. The company has serving the area for over 19 years. Their roofing professionals have 25 years of experience and are capable of handling the installation or repair of roofing and siding for all styles, including soffit and fascia. The company is a family operated and oriented business, which allows them to have a unique insight with regards to the importance of safety while doing the job. They have been voted the best Sanpete County Roofing Contractor for 10 consecutive years.
