

Revise, Inc. Empowers Homeowners to Make Energy Efficient Upgrades Thanks to Mass Heat Loan Program

October 10, 2023

BEDFORD, MA - October 10, 2023 - PRESSADVANTAGE -

As energy costs continue to rise, most homeowners are seeking to maximize their home's energy efficiency. Recognizing this need, Revise, Inc., a leading home energy assessment company, proudly announces its partnership with the Mass heat loan program. This program, offered through the renowned Mass Save® initiative, provides homeowners with the opportunity to obtain this low-interest Mass Heat Loan Program for home energy efficient upgrades.

To initiate the Mass Heat Loan Program Process, homeowners are required to schedule a home energy assessment with a Mass Save® approved company like Revise, Inc. During this assessment, homeowners will receive a complimentary evaluation that helps identify the necessary energy efficient upgrades for their homes. Simple and cost-effective upgrades like insulation and air leak sealing can make a significant impact on home energy savings.

Revise, Inc. understands the financial burden of home upgrades and aims to ease the process for homeowners. By utilizing the Mass Heat Loan Program, homeowners can secure funds for insulation upgrades and other energy-efficient home improvements. This Mass Heat Loan Program starts as low as \$500 and can make a substantial difference in reducing home energy consumption.

Windows and doors are often overlooked when it comes to home energy efficiency. However, with the support of the Mass Heat Loan Program, eligible homeowners can invest in triple-pane windows and insulated doors at a discounted rate, contributing to long-term energy savings.

The advent of smart thermostats presents homeowners with an opportunity to optimize their heating systems. By programming thermostats to utilize zone heating or cooling and setting timers, homeowners can significantly reduce home energy consumption. The Mass Heat Loan Program can assist in purchasing these advanced thermostats, further enhancing home energy efficiency.

Revise, Inc. recognizes the importance of HVAC systems in maintaining home energy efficiency within

homes. High-efficiency furnaces and boilers with ratings above 90 percent can provide significant cost savings. While these systems may require a substantial investment, the Mass Heat Loan Program can help homeowners overcome the initial outlay and take advantage of rebates and discounts available.

Heat pumps represent the ultimate energy-efficient home upgrade, although they can be costly. Through the Mass Heat Loan Program, homeowners can access up to \$15,000 in funds and receive a \$15,000 rebate towards the purchase of heat pumps. Homeowners who wish to retain their current furnace or boiler can integrate a heat pump into a hybrid system, maximizing home energy savings.

When it comes to financing the Mass Heat Loan Program, Revise, Inc. stands ready to assist eligible homeowners in determining the appropriate Mass Heat Loan Program amount and guiding them through the paperwork. This zero-interest Mass Heat Loan Program can be repaid over a period of up to seven years, ensuring affordability and accessibility for homeowners.

"Revise, Inc. is dedicated to promoting home energy efficiency and educating homeowners about their options under the Mass Save® program," said Revise, Inc. "Our team of highly trained professionals is committed to providing exceptional service and helping eligible homeowners maximize their savings while enhancing home energy efficiency. We strive to simplify the process and empower homeowners to make informed decisions."

To embark on the journey towards enhanced energy efficiency, homeowners are encouraged to contact Revise, Inc. at 800-885-7283 (SAVE) or visit the company's website at <https://www.callrevise.com/mass-heat-loan/>.
