*October 16, 2023*

Akron, Ohio - October 16, 2023 - PRESSADVANTAGE -

The Allen Thomas Group, an insurance agency based in Akron, OH, is helping small business owners understand how insurance coverage can protect their ventures, today and into the future.

Business insurance is designed to cover entrepreneurs against a litany of risks that have the potential to threaten their business. With the right coverage, businesses can safeguard themselves against unexpected lawsuits stemming from everything from accidents on their premises to failure to meet professional standards of service. So, to help its customers stay protected, The Allen Thomas Group presents an in-depth discussion on the kind of insurance coverage that small businesses need.

"You don't want half measures when it comes to securing business insurance for an LLC," says the spokesperson for The Allen Thomas Group. "It is the lifejacket that can help your company stay afloat amidst unforeseen business storms. In fact, according to statistics from The Hartford, four out of 10 small businesses are likely to experience a property or general liability claim within the next decade. So, making sure you are

adequately covered for all contingencies is paramount.?

General liability insurance protects businesses from claims related to property damage, physical injury, defense costs, and personal and advertising injury. For example, if a customer accidentally cuts their hands on a kitchen utensil in a bakery, general liability insurance would cover the medical expenses associated with the injury as well as any legal costs if the customer decides to sue.

Professional liability insurance, also known as errors and omissions (E&O) insurance, is relevant to businesses that provide professional services or advice. It protects against claims of negligence, errors, or omissions made by a company or its employees in delivering services. Professional liability insurance also provides financial assistance for legal defense costs and settlements or judgments that may arise from such claims.

Businesses may also opt for other types of insurance specific to the industry they operate in. Some small businesses might need commercial auto insurance to protect vehicles used for business purposes. Others may need cyber liability insurance to safeguard against data breaches and cyber-attacks. Many businesses may also need workers' compensation insurance to cover employee injuries on the job.

The spokesperson appeals to businesses to make the right decisions regarding insurance coverage by saying, "As a small business owner, you can consider these insurance options as building blocks to create a robust shield of protection around your LLC. With the right guidance from seasoned professionals, such as the experienced and knowledgeable team here at The Allen Thomas Group, you can get the peace of mind you need to excel in your chosen profession.?"
