Roofing Contractor in Sanpete County Takes Pride in Receiving Another Rave Review

October 20, 2023

October 20, 2023 -
Clean Cut Roofing & Siding, a company based in Mount Pleasant, Utah, that offers roofing services in San Pete County and neighboring areas is proud to announce they have received another rave review. They have proven that when it comes to a roofing contractor Sanpete County residents can depend on them. At present, they have an overall rating of 5.0 out of 5 stars on Google. They want to point out that what make them distinct from other roofing service providers in the area are their honesty, reliability, and affordability. Their service area includes: Sanpete County, Carbon County, Sevier County, Emery County, Millard County, and Juab County.

In the above-mentioned review, Tay Davis gave them five stars and said, ?Our first experience was with Josh the salesman. He was very in formative and gave us a few hints. Not at all pushy. We felt good about doing business with this company after talking with him. The workers were experienced and knowledgeable. They did a beautiful job. Our siding installer even installed siding where I thought it was impossible. Our 135 year old home looks fabulous. I would highly recommend this company.?

Vern Akauola, owner of Clean Cut Roofing & Siding, says, ?Given that we know that most home and

property owners aren?t excited about having to tackle a new roofing project, we?re focused on making it as hassle-free as possible. Obviously, there aren?t terribly many people out there looking to tear off and rebuild their roof ?just because?. Generally, when we are called in to tackle a project ? It's well known that it?s usually because there?s something wrong with the existing roof that needs to be repaired, replaced, or completely redone. With that being said, being certified as a Malarkey Emerald Premium Contractor gives us the opportunity to offer our customers a great warranty, that is registered for them.?

Clean Cut Roofing & Siding provides a range of services for roofing Sanpete County residents can depend on. These include: residential roofing repair, installation, and inspection; siding repair or installation; asphalt shingle roofing and metal roofing projects; and commercial flat roofing projects. Serving as a contractor providing roofing Sanpete residents can rely on, they have decided to focus on Malarkey Roofing Products for various reasons. The most important reason is that Malarkey always supports their products and their Certified Premium Contractors. Another vital reason is that all Malarkey architectural and designer shingles are provided with smog reducing granules, which enable them to be environmentally friendly. The sun?s ultraviolet radiation activates these granules, which then act to breakdown the smog particles, transforming the harmful gas to a more plant-usable form of nitrogen that stays on the roof until it gets washed away by snow or rain.

Clean Cut Roofing & Siding also offers flat roofing for both residential and commercial roofing. Two common options for flat roofing are ethylene propylene diene terpolymer (EPDM) and thermoplastic polyolefin (TPO). For flat roofing, they usually apply the Mule Hide TPO roofing system in most applications. It offers the benefits of being economically efficient and quick to install. TPO offers the benefits of strong resistance to air borne bacteria, fire, industrial pollutants and UV rays.

Founded in 2004, Clean Cut Roofing & Siding is owned by Vern Akauola and provides roofing services for residential and commercial properties in Sanpete County and surrounding areas. Their roofing professionals have 25 years of experience and have the expertise and experience to properly handle the installation or repair of roofing and siding for all kinds of styles, including soffit and fascia. The company is a family operated and oriented business, which enables them to have a unique insight as to the value of safety while doing the roofing project. That they they provide quality work has been attested to by their five star reviews and having been voted the best Sanpete County Roofing Contractor for 10 successive years.

Those who are interested in getting the services of Sanpete roofers can check out the Clean Cut Roofing & Siding website or contact them on the telephone or through email.
