

ABC Glass and Mirror Provides Installation Services for Glass and Mirror in Manassas Park, Virginia

October 27, 2023

October 27, 2023 -
ABC Glass and Mirror in Manassas Park, VA, is offering glass and mirror installations in Manassas Park and neighboring areas. They have all the professionals to perform the job properly. Their project estimators will visit the home of the client and take the necessary measurements for the glass or mirror installation. They will make sure to consider every nook and cranny to make sure that the glass or mirror will be a perfect fit. They will also make sure the installation process will be stress-free for the homeowner from beginning to completion.

Mike Howell, owner of ABC Glass and Mirror, says, ?To get started all you have to do is call one of our glass professionals at (703)257-7150. They are there to help answer all of your questions. During the initial phone call they will briefly go over the course of action for your home or office project. After they have established what custom glass and mirror application you are hoping to have installed, they will schedule an appointment at your convenience. We always strive to ensure a consultation that works for you.?

Most of the custom glass and mirror products offered by ABC Glass and Mirror require professional installation. Thus, after the customer has agreed to the estimate they have offered, the scheduled date of the installation will be set. Customers can depend on them to provide timely and thorough installation services. Some of the products and services they can provide include: frameless glass shower enclosures and doors, custom mirrors, vanity mirrors, glass shelving, back painted glass, and glass partitions.

Frameless shower enclosures are used to make the bathroom appear and feel more open. If there is not enough space in the bathroom, a frameless enclosure made of clear glass can be used to provide an illusion of space for that spa-like luxury feel.

They can also provide and install custom mirrors in non-standard shapes to meet the customer?s specific decorating needs. They can also provide mirrors that will fit just right even for those rooms where the surfaces are out of plumb or out of level.

They can also install a vanity glass mirror that can serve as a focal point in the bathroom and contribute to its aesthetics. It is important to note, however, that shape, size, style, and the installation method are all factors that will determine whether a mirror will ?work? above a certain vanity, which is why ABC offers many options to the homeowner. By collaborating with their experienced glass experts the homeowner would be able to customize the vanity mirror to achieve not just the family?s practical need but also home decoration goals.

They can also provide the installation of glass shelves, which can offer a unique combination of practicality and anesthetic appeal. It is possible to order shelves of different lengths and depths for application in various areas or to provide eye-catching arrangements of shelves on the walls. They can also install glass shelves in cabinets and closets.

Founded in 2002 by Mike Howell and his son Micah, ABC Glass and Mirror is a family owned and operated business backed by over 40 years of owner industry experience and more than 150 years combined industry experience. With their team of veteran glaziers and installers, their expertise is unsurpassed. Since 2002, the business has thrived as a high end glass shop that has gained the trust of many homeowners, commercial clients, and property managers. Currently, the ABC Glass and Mirror team serves a broad variety of customers with the ability to handle all kinds of glass and mirror projects, from a new vanity mirror for a powder room, to glass shower doors or an apartment complex, or decorative glass for a new restaurant.

Those who require glass mirror installation in Manassas Park and surrounding areas can visit the ABC Glass and Mirror website or contact them on the phone or through email. They are open from 7:00 am to 4:30 pm from Monday to Friday.
