# Windy City Fence Company Is Offering A Wide Range of High Quality Fence Service Packages For Chicago Residents

*November 02, 2023*

November 02, 2023 -
Windy City Fence Company is offering high-quality fencing in a range of styles and materials to homeowners across Chicago and nearby suburbs.

The family-owned and operated company has proudly served the Chicago area for over 15 years. The company?s fencing solutions are tailored to fit the needs of all customers. Whether homeowners or business owners are looking for something that adds privacy, security, or aesthetic appeal, Windy City Fence Company has got them covered with its range of fencing products which includes vinyl/PVC, coyote rollers, ornamental iron, chain link fences, arbors and trellises, electronic gates, green fences, aluminum, and wood fencing.

Aluminum fencing is one of the most popular materials for both residential and commercial properties due to its strength and low maintenance cost compared to wood or vinyl. It can be used in a variety of applications ranging from decorative fencing, privacy fencing, and security fencing. Moreover, it is also available in different styles such as picket fences and post-and-rail fences.

Arbors and trellises can be used to add sophistication and elegance to a garden or outdoor space. The traditional style arbor is perfect for creating a welcoming entrance to any garden. Some of the ideas that can be implemented are a simple archway or a growing structure for climbing plants and vines. Trellises are another great option that is perfect for supporting vines and other climbing plants such as roses and clematis.

Chain link fences are a very popular and economical fencing option. Made out of galvanized steel wire woven into a diamond-shaped mesh, they are typically used to secure backyards, playgrounds, commercial properties, and many other kinds of outdoor spaces. They are also available in various heights, styles, and gauges and can be finished in a variety of colors and coatings.

For those concerned with security and convenience, Windy City Fence Company can install electronic gates, a security system that uses an automated barrier to restrict access to a property. The system typically includes a control panel, either indoors or outdoors, sensors, keypads, card readers, and the gate itself. The solutions can be customized based on the homeowner or commercial property owner?s budget, security needs, aesthetics, and functionality.

Property owners looking to make an impressive, eye-catching boundary to complement their landscaping can rely on ornamental iron fencing. Customers can choose from decorative fence panels with intricate designs, pickets in various shapes and sizes, and pre-fabricated sections that can be easily installed. Available in wrought iron or steel and aluminum, the former tends to last much longer than the latter as they are extremely durable and resistant to rusting.

Many homeowners would also prefer vinyl fencing that is available in a variety of styles, colors, and heights, and can be customized to fit any space or preference. It is also rot and insect-resistant, lasting longer than traditional wood or metal fencing. They can also be recycled, making it a great option for those looking to be eco-friendly.

Finally, wood fencing is an attractive and cost-effective way to add a touch of beauty and security to a home or yard. Customers can choose between classic picket fences to more luxurious styles available in a variety of shapes, heights, and board widths to suit any budget. Cedar boards are especially rot-resistant and insect-proof.

Windy City Fence Company can create custom-designed solutions no matter the design or topography of its clients? properties. No project is too big or too small for the company?s fence professionals as they can handle everything from temporary fence installs to long-term installations. Rated at an A+ by the Better Business Bureau, its client list includes Chicago?s most high-profile celebrities, athletes, and business executives.

A recent 5-star review of the company?s services on its Google Business Profile says, ?Very professional installation. They were able to complete it in two days. Provided a longer post in order to accommodate a fence topper. Was pleased with the final look. The cost was very reasonable. Would recommend for your next fence project.?

Readers in Chicago and surrounding communities are urged to contact Windy City Fence Company at (773) 923-2360 to get started.
