Sensational Smiles Dental is helping local patients understand the many benefits of the All On 4 dental implant procedure, a full arch implant restoration system that replaces teeth.

Losing teeth can have a dramatic impact on a patient's oral health. Apart from making it difficult to speak, eat, or smile, it can also alter their jaw and face structure, changing how they look and impacting their self-esteem. All On 4 dental implants, then, are the ideal solution for patients who do not want to compromise their looks and their lifestyle due to missing teeth.

The procedure has the unique ability to provide full mouth restoration within 24 to 48 hours. It uses four titanium metal dental implants, two at the front section of the jawbone and two posteriorly tilted implants for increased support at the back. Once the implants are surgically placed into the jawbone, a bridge is attached allowing patients to leave the clinic with a fully functional set of permanent replacement teeth.

There are many ways in which All On 4 dental implants are superior to traditional dental implants, says the spokesperson for Sensational Smiles Dental. First, unlike traditional implants which require multiple appointments over several months, All On 4 can take one day to place. All On 4, as the name suggests, also requires much fewer implants since conventional implants can need anywhere from 8 to 12 screws per arch. Finally, All On 4 offers reduced surgery and recovery time compared to other dental restoration systems. To find out more about the best All On 4 Sydney has to offer, contact Sensational Smiles Dental today.

All On 4 is often suitable for more complex cases and is a possible treatment option for anyone with damaged or missing teeth. To determine whether a patient is a suitable candidate for All On 4, the implant dentists at Sensational Smiles Dental will review the patient's medical history, take X-rays of the jaw and remaining teeth, and consider any lifestyle choices that might impact the success of the treatment.

The spokesperson provides more information on how to choose All On 4 dentists in Sydney by saying, "Just because someone is qualified to place All On 4 implants, does not mean they are vastly trained. You have to identify a clinician who has invested in their education in implantology, has taken comprehensive postgraduate courses, and has focused their career on dental implants. The experience of the dentist also comes into play. Finally, you must make sure that the implants comply with Australian safety regulations and are made from the best quality materials."

At Sensational Smiles Dental, Dr. Michael Shehata, the clinic's resident All On 4 implant expert, has dedicated years of his life to implantology training. He has completed the Brener Implant Institute Masters Implant Program, achieved a Masters in Oral Surgery, and attended Dr Malo's, the creator of the All on 4 technique, clinical residency in Portugal. Today, Dr. Shehata places implants every day and uses his years of experience to solve every possible complication out there.

Sensational Smiles Dental has earned the love and admiration of its patients in Sutherland Shire by delivering compassionate care to everyone. The Kirrawee dental clinic even boasts a perfect 5.0 out of 5.0 overall rating on its Google Business Profile from over 320 reviews.
