Roofing Company in Sanpete County Is a Certified Shingle Roofing Contractor

November 09, 2023

November 09, 2023 -
Clean Cut Roofing & Siding, a business based in Mount Pleasant, Utah, that delivers roofing services in San Pete County and nearby areas takes pride in being a certified shingle roofing contractor Sanpete residents can depend on. Clean Cut is a certified asphalt roofing contractor with Malarkey Roofing Products, which means that they can provide warranties from the roofing shingles manufacturer. They are also certified by several manufacturers for all kinds of roofing systems. Their service area includes: Sanpete County, Sevier County, Emery County, Carbon County, Juab County, and Millard County.

Vern Akauola, owner of Clean Cut Roofing & Siding, says, ?As an asphalt roofing contractor, we choose Malarkey Roofing Products for many reasons, but the most important is they back their products and their Certified Premium Contractors. They back our work with a non-prorated warranty period for shingles and accessories on complete re-roofs. They back our work with a minimum 40-year non-prorated warranty period for shingles and accessories and a 20-year workmanship warranty.?

An important advantage of all Malarkey architectural and designer shingles is that they include smog reducing granules. These granules are activated by the sun?s ultraviolet radiation and this allows them to

breakdown the smog particles by converting them from a harmful gas into a form of nitrogen that is more plant usable. This chemical remains on the roof until that time when rain or snow washes it away. Each shingle that they provide, on an average sizes roof of 30 square meters, has the equivalent potential of two or more trees, including around five recycled rubber tires and 350 plastic milk jugs.

Vern Akauola says, ?At Clean Cut Roofing we offer free estimates for all types of projects including repair estimates. Additionally, we can give you a free estimate to install a repair on your asphalt shingle roof and match your existing shingles so the repair will be less visible.?

The Malarkey asphalt architectural shingles provided by the roofing Sanpete contractor are the: Highlander NEX, Legacy, and Vista, and the designer shingle known as Windsor. They make sure to install the shingles in such a way that will allow the roof to qualify for the enhanced wind warranty of 130 mph. There are a number of distinctive factors about the asphalt roof repairs that they provide. These include: the fact that all estimates are free; ice damage repair; wind damage repair; hail damage repair; insurance claims assistance; leak repair; missing shingles replacement; full re-roof; partial re-roof; and provision of both residential and commercial roof repairs.

Established in 2004, Clean Cut Roofing & Siding is owned by Vern Akauola and delivers roofing services for both residential and commercial buildings in Sanpete County and neighboring areas. Their roofing professionals have been in the industry for 25 years, which provides them with the expertise in correctly handling the repair or installation of roofing and siding for all types of styles, including soffit and fascia. The company is a family operated and oriented business, which provides them to have a unique understanding of the importance of safety while pursuing the roofing project. The quality of their work has been proven by their five star reviews. They have also been voted the best Sanpete County Roofing Contractor for 10 consecutive years.

They currently have an overall rating of 5.0 out of 5 stars on Google. In one recent review, Mary H. gave them five stars and said, ?What a pleasure to have Clean Cut do our roofing job. They came out and looked at what needed to be done, showed pictures of what was going to be repaired, gave a quote and when the time for the job to start. Tanner did such a great job, explained questions I had about a few items. Cleaned up the job site. When the job was done, I was assured that if we had any problems to contact them and they would fix it. Thank you for being such a great company to deal with.?

Homeowners and other property owners who are looking for reliable Sanpete roofers can visit the Clean Cut Roofing & Siding website or contact them through the telephone or by email.
