

California Company Announces Romantic Picnic Baskets For Two As Part Of Grand Opening Celebration

December 22, 2015

December 22, 2015 - PRESSADVANTAGE -

Wine and Picnic an online company has announced their grand opening, and in correlation with this, the company has released many romantic wicker picnic baskets for two. Andres O, owner and operator of the business, states, "We have been working for some time now toward our grand opening, and now that it's here, we wanted to offer something special for our customers." He states that they offer a wide selection of choices on their website.

Wine and Picnic is a family owned and operated business that is based in Burbank, California, and features fine quality wicker baskets for couples, as well as picnic backpacks, wine bags, and wine accessories.

"We have a great selection of fine gift ideas for the upcoming holiday or any special occasion," states Andres. He adds that they offer gifts for corporate as well as personal occasions, and that they specialize in creating romantic settings with their baskets that are perfect for Valentine's Day dinners, engagement dinners, or any time couples want a special evening together.

As part of their official opening, the company has featured on their website a range of picnic baskets for two, including a Bacchus Moka basket that includes two hand blown wine glasses, a stainless steel corkscrew, a stainless steel bottle stopper as well as two washable napkins, and the basket, which fits a standard bottle of wine along with other picnic necessities.

The website offers a number of selections of wine totes, backpacks, and other gift ideas and range from those small enough for two to larger baskets. As part of their grand opening, the company has also implemented a club where consumers can join and receive special promotions and discounts on future purchases. Andres says that this is just one more way that the company is celebrating their official grand opening, and that he hopes customers will appreciate the effort that the company has made toward helping them find and choose wine gift baskets and totes for every occasion.

More about the company, including a complete listing of the various baskets and gifts that they offer, can be

seen on their official website at wineandpicnic.com.
