November 08, 2023 -
GA based Kenneth S. Nugent, P.C. would like to reach out to Duluth residents who may be in need of an auto accident lawyer. The Duluth firm specializes in auto accidents, helping those who have been injured file successful claims.

As many are aware (or will find out to their horror), car accidents are likely to be expensive. Repairs, hospital bills, loss of income and a long list of other issues can prove incredibly costly for the victim. Unfortunately, insurance companies are aware of the massive cost of adequately compensating a car accident victim, so they strive to convince victims to accept low offers. Car accident victims are often unaware of their rights or in no position to consider them due to medical issues stemming from the accident, and this is why they will often accept settlements that are worth a fraction of what they are entitled to ? and need.

Hiring a Duluth car accident lawyer means working with an individual or team of individuals who understand the law surrounding the injuries inflicted in such events. They can also make sure that insurance companies are made to pay adequate compensation. Kenneth S. Nugent, P.C. is among the top auto accident attorney firms in Duluth, and their team of experienced legal professionals have years of experience with auto

accidents in Duluth.

?It is important that your auto accident attorney in Duluth cares about your condition,? says the firm. ?You cannot simply be ?another case? for them. Your health and well-being are dependent on their ability to actively and accurately represent you. It is important that the attorney understands the extent of your injuries and what it will take to bring your life back to normal. It is important that they understand how this has affected the quality of your life and how it will affect it in the future. They need to have the compassion to understand the financial stress you are feeling and the frustration of dealing with an uncaring insurance adjustor. Only then, when there is that bond between attorney and client, can you be accurately represented.?

What puts many people off hiring a lawyer after a car accident is the anticipated cost associated with this action. Many victims choose to handle the claim process on their own as a result, thinking they are saving money by doing so. This is how many road accident victims, perhaps even the majority, end up with much less compensation than what they deserve, especially in more complex or serious cases.

Unfortunately, the average person does not understand the law well enough to put together a compelling case, especially not where questions of liability (which involve a legion of complicated laws) are involved. While it may seem expensive at first to hire an auto accident lawyer, the truth is that accident victims will likely save more money in the long run. It will also provide them peace of mind that a professional is handling their case.

Accidents happen every day, and they cannot be anticipated or fully prepared for. What happens after an accident, however, is firmly within the victim?s grasp, provided they take the correct steps. Seeking legal counsel after an accident is always the right step, for instance, and the Kenneth S. Nugent, P.C. team is always ready and willing to help car accident victims get the compensation they deserve.

The Duluth firm has received hundreds of reviews online and off. One such review states, ?I had the pleasure of working with Attorney Eric Sterling and his associate, Cindy Gaille. Both practiced exceptional customer service and went above and beyond my expectations. My case was settled in less than six months! No, I'm not saying your case would be settled that quickly, but it's definitely worth the wait! Eric was more concerned with [my best interests] and what I needed rather than just putting money in his pocket. He sincerely cares for the wellbeing of his clients. If you need fast, reliable service from someone who understands your situation, call Eric and Cindy today! Would definitely use again if needed.?
