Georgia Medical Malpractice Lawyer Fights For Macon Patients

November 07, 2023

November 07, 2023 -
Kenneth S. Nugent, P.C. - Macon is defending the rights of patients who received substandard care at the hands of a doctor, dentist or other healthcare professional. Thanks to their network of trusted professionals, the firm is ready and willing to direct clients to facilities that can properly treat their ailments, following which they will start building a case against the responsible party.

?In a perfect world, there would be no need for a medical malpractice lawyer,? comments a representative from Kenneth S. Nugent, P.C. ?As patients, we place a great deal of trust in medical professionals to give us the best possible care, and we often visit these institutions in times of great vulnerability. A healthcare provider has a duty of care to you, and incompetence or negligence is a breach of this duty. We can help you pursue compensation for any injuries or suffering you may have experienced as a result.?

In any healthcare setting, it is widely understood that a degree of risk is involved in virtually every procedure. Medical malpractice occurs when the procedures established to minimize this risk are not followed, thereby exposing the patient to a greater possibility of adverse ? even fatal ? outcomes.

Examples of this include medication being prescribed incorrectly, improper or incompetent care being provided during treatment, surgeons operating on the wrong body part and more. Patients who have received a misdiagnosis, especially when this causes a delay in critical care being received, may also be considered the victims of medical malpractice. Kenneth S. Nugent, P.C. urges anyone who suspects their care caused undue harm to get in touch today to discuss the possibility of filing a medical malpractice claim.

The firm has helped countless clients over the years, and they are particularly fierce when it comes to defending the rights of families. This is especially true when several family members (or children) were involved, be it medical malpractice or any other manner of injury-causing event. Kenneth S. Nugent, P.C. states that their Macon offices are always ready to welcome families who have fallen victim to the negligence

of another party, be they a private individual or a professional institution with strong legal backing.

?After my husband, my daughter and I were in a car accident,? shares Kim S. in a review, ?we were confused and concerned with the damages to our property as well as physical damages we endured. Unfortunately for me, my injuries resulted in a required surgery and countless other procedures to help alleviate my pain. The law office of Ken Nugent was the best choice we could have ever made.?

According to the client, there were many reasons why she felt her case was in good hands. She says, ?Jason's entire team, especially Angie, were a breath of fresh air. Angie is thorough, pays attention to fine details, always puts the thoughts and feelings of her clients first and is proactive in getting the information to her clients in a timely manner. I never had to worry about whether or not Jason or Angie was working hard for me and my family. I received updates regularly and everything was thoroughly explained. They left no stone unturned, and we are very pleased with the results of our case. Do not look anywhere else when you need a trustworthy team behind you!?

Kenneth S. Nugent, P.C. points out that medical malpractice cases require attorneys to be painstakingly diligent in their work, and this takes both time and resources. Depending on the scale of an issue, especially when multiple parties are injured, many law firms might be ill-suited to tackle an organization as large and powerful as a medical institution ? but this is exactly what Kenneth S. Nugent, P.C. is capable of. The firm has grappled with many sizable institutions and their legal teams already, and their record of successful settlements speaks for itself.
