

# Todd Bennett, New Owner of Auto Repair Provider in San Juan Capistrano, Promises Same Five-Star Service

*November 13, 2023*

San Juan Capistrano, CA - November 13, 2023 - PRESSADVANTAGE -

Todd Bennett, the new owner of West Coast Tires & Services, an auto repair company based in San Juan Capistrano, CA, has promised to provide the same five-star service the company has been providing. The company has an overall rating of 4.5 out of 5 stars on Google after receiving almost 200 reviews and 4.6 out of 5 stars on Yelp after receiving more than 150 reviews. West Coast Tire & Services has state-of-the-art diagnostic equipment, offers repair work on extended warranties, and has a team of excellently trained and ASE-certified technicians.

In a recent review on Google, Bruce M. gave them a five-star rating and said, "Great service. Great prices and Chris Hermann has many years of experience and great customer service and his crew diagnosed the problem better than the dealer. I will definitely go back to them in the future."

In a recent review on Yelp, John C. also gave them five stars and said, "I have been coming here for years and always felt the team would treat me fairly and address any urgent question or need for my family's cars. We recently had our daughter's Prius come back from 2 years in Berkeley, CA and after the long drive home - lots of lights were popping up. The team came out to check the Prius and advised me of what to put into the tank and sent me on my way. Great first visit with the new team! I was pleasantly greeted and taken care of just like Thong."

Todd Bennett wants to emphasize that they are offering five-star service with some of the most competitive prices in South Orange County. They are ready to provide comprehensive auto care. Whether it is brakes, engine trouble, transmission, or just routine maintenance, they can do it. They can service all makes and models, including light-duty trucks. They also take pride in being a certified Goodyear tire dealer, as well as a provider of a broad selection of other top tire brands such as Michelin, Kuhmo, Bridgestone, or Falken. Those who don't need new tires can have West Coast Tires rotate and balance the current set of tires to ensure they will continue to run strong.

West Coast Tire & Services can also provide repair and maintenance services for diesel vehicles. A diesel engine is expected to have a life expectancy that is longer than that of gasoline engines. They can offer affordable routine maintenance services for diesel engines that can prove crucial to the life of the diesel engine and its parts. Ensuring that diesel engines are maintained by well-trained technicians is vital because they are quite expensive. Modern diesel engines have many new components, which is why it is essential to have them attended to by diesel engine experts. At times, diesel engines and their components will need specialized tooling and the proper training to operate such tools. The diesel mechanics at West Coast Tire & Services are experienced and knowledgeable about modern diesel engine software for their engine control modules. They are capable of updating the software, which can provide a solution to many issues and boost engine efficiency.

Founded in 2006 by Thong Nguyen, West Coast Tire & Services is a Goodyear Tire & Service Network location. They carry Goodyear products and provide a broad variety of automotive and tire services. From new tires to an oil change, to battery replacement, the company's skilled technicians are ready to repair and maintain the client's vehicle. In 2023, Thong sold the business to Todd Bennett, who has pledged to maintain its five-star service. Their service area includes San Juan Capistrano, Dana Point, San Clemente, Laguna Niguel, Aliso Viejo, and Mission Viejo.

Those who are interested in learning more about the auto repair services & tire sales provided by West Coast Tire & Services can visit their website or contact them on the phone. They are open from 7:30 am to 6:00 pm from Monday to Friday and from 7:30 am to 5:00 pm on Saturdays.
