STATEN ISLAND, NY - November 08, 2023 -
STATEN ISLAND, NY ? In an era where the appreciation for luxury cannabis accessories has seen exponential growth, TICAL stands out with the launch of its exclusive, hand-crafted locking humidor. This unique offering is not just a product but a statement, carefully designed to meet the needs of the modern smoker who values discretion, practicality, and class.

The brainchild of legendary artist Clifford Smith, Jr., better known as Method Man, and co-founder Joshua ?Raz? Rassin, TICAL's latest innovation is a testament to the brand's commitment to redefining the modern lifestyle experience. "We wanted to create something that wasn't just a box but a centerpiece of luxury and functionality," says Method Man. This locking humidor for cannabis exemplifies TICAL?s vision to elegantly integrate luxury with the everyday needs of the discerning cannabis enthusiast.

Each locking humidor safe box for weed is a work of art, hand-painted and adorned with a gold vegan-friendly leatherette interior. It?s not just about aesthetics; this box is designed to keep cannabis products fresh, arranged, and secure, with dimensions measuring an impressive 13 inches by 10 inches by 6.5 inches.

But TICAL's humidor is more than just storage; it's a complete lifestyle kit. "Our customers demand the best, and we've gone above and beyond," Rassin states. The box includes a Gold Bone Holder for on-the-go convenience and a key and combination lock for unparalleled security. The interior boasts high-density foam to cushion precious glassware, alongside elastic straps for holding oil canisters upright, and a side nook for tools and papers.

Every order is an extravaganza of Method Man merch, including four limited edition TICAL stickers, a one-of-a-kind TICAL pin, and a limited edition TICAL lanyard. To augment the experience, there's a custom honeycomb print rolling tray, a gold-colored kitchen grinder, four TICAL custom glass jars, and four non-stick containers, all strong, durable, and odor-resistant, encapsulating the essence of a locking humidor for weed that offers both security and style.

Method Man himself signs a Certificate of Authenticity accompanying each humidor, emphasizing the exclusivity and personal touch of the product. Alongside this, customers will find a suite of premium accessories including a custom upcycled rubber coaster by Moodmats and a custom gold-colored Zippo, ensuring that customers have everything they need for the ultimate marijuana smoking experience. These curated additions underscore TICAL's commitment to providing a comprehensive luxury experience for the discerning cannabis connoisseur.

This launch is not just about a product; it's a celebration of culture and craftsmanship. "This locking humidor is the embodiment of the TICAL philosophy ? it's where luxury meets lifestyle," says Method Man. With its discreet yet bold statement, the humidor is set to become a coveted item among connoisseurs. Method Man and Rassin have meticulously designed this locking humidor for weed to be a hallmark of sophistication and high-end design, reflecting the intricate balance between functionality and luxury in the evolving cannabis market.

In anticipation of the high demand, TICAL has opened pre-sales for this exquisite piece, which will begin shipping in Spring 2024. Customers can take advantage of the early bird special, priced at $420, with pre-sales ending on November 15, 2023. This is an opportunity for enthusiasts to secure a piece of hip-hop luxury and functionality.

The launch of this locking humidor is not just an addition to TICAL's product line; it?s a cultural moment, bridging the gap between cannabis culture and luxury lifestyle. As Method Man concludes, "We're not just selling a product; we're delivering an experience. This humidor is for those who appreciate the finer things in life and aren't afraid to show it."

For the proud modern smoker demanding nothing but the best, TICAL's new locking humidor offers an unrivaled experience that's as unique and authentic as Method Man's legacy itself.
