One customer writes, "My 1-year-old garage door, from another vendor, stopped mid-lift and peeled the roof off of a brand new and very expensive car. The door was installed improperly, not lubricated, and was binding on the bend. I called on Wednesday and Stellar was out Thursday morning. They worked very quickly and charged a fair price. There were several opportunities to charge more, but he came from the perspective of a homeowner and not a salesman. He suggested that I wait for some of the work when it would make more sense to replace the springs. Most vendors either look at our zip code, visit our home, and crank up the price. Stellar saved me about \$1,000 and earned my business for life. I'm now confident that my new replacement car will keep its roof. I won't go anywhere else."

Another homeowner says, "Stellar responded same-day to replace a broken spring (no point in congratulating yourself on having battery backup on the opener if the spring breaks - you are stuck!) Though we assured dispatch that it was not an emergency, the tech arrived at the end of what must have been a very long day. Cheerful, well-spoken, capable, efficient. Repairs were made and goodnights were said. This is not the first time we've had stellar help from Stellar. Given the constant ups and downs of our garage doors, it almost certainly won't be the last."
