# Peppy Heating and Cooling: A Custom Mitsubishi HVAC System Installation in Boise Idaho

*November 22, 2023*

Boise, Idaho - November 22, 2023 -
Peppy Heating and Cooling, a top HVAC company and the only Mitsubishi Elite Diamond Contractor serving Boise Idaho, has recently published the first of a planned series of case studies. The first one features a custom Mitsubishi HVAC system installation in Boise. This case study and the future case studies to be released include various elements, such as: detailed documentation of the project, a photo gallery that presents both before and after on scene photos of the project, a pdf version of the custom Mitsubishi HVAC system installation that any interested consumer can download and save for future reference, and a video about the case study.

An AI chatbot has also been included to make it easier for site visitors to explore the various contents of the whole website. The chatbot has been trained on the entire content of the site and related resources, which allows it to answer any queries the visitor may have as well as provide the links to other resources on the website.

With regards to the first case study, Brett Shannon, President of Peppy Heating and Cooling, explains, ?This customer was looking to transition from using natural gas, to an all electric high efficiency ducted heat pump from Mitsubishi. She was very energy and environmentally conscious, so we wanted to make sure that we designed a system that would not only help her save energy and not use fossil fuels to heat, but also create better comfort than her original system provided. We were able to accomplish just that! She also has someone living in the bonus room above the garage, and it was never comfortable up there. It is always hard to get to completely separate areas of the home, on different levels with different heat and cooling needs comfortable! We were able to solve it though.?

The solution proposed was the design and installation of a custom heating and cooling system. It is composed of a Mitsubishi SVZ36 Air Handler for the downstairs area, a Mitsubishi MLZ09 Ceiling Cassette for the bonus room upstairs, and a Mitsubishi ducted heat pump outdoor unit. Boise homeowners interested

in the possibilities offered by custom HVAC system installations are welcome to download and print the pdf version for future reference.

The custom Mitsubishi HVAC system offered several benefits. First of all, it provides high energy efficiency because the Mitsubishi heat pumps are much more efficient compared to conventional gas furnaces, which allows the homeowner to save on energy costs. Second, it offers comfort because the Mitsubishi systems offer BOTH customized zoning and even cooling and heating, making sure that everyone in the home is comfortable. Third, the Mitsubishi HVAC systems have a reputation for their durability and reliability. Fourth, the system is versatile because the Mitsubishi systems can be utilized for heating and cooling different kinds of homes, including homes that have several levels or add-on spaces.

Lisa H., the Boise Idaho homeowner, expressed her satisfaction for the completed project. She said, ?On-time, courteous and respectful, attentive to details, did excellent work, cleaned up completely when done. If I could give them six stars I would! When my old gas heating system developed a crack in the heat exchanger, I got six bids for a new all-electric, cold-climate heat pump system to take advantage of my solar credits. Peppy provided by far the most efficient and effective system bid for the cost, and were honest and responsive, from the office folks to the installers. I?ve recommended them to everyone I know who has asked for an HVAC bid.?

Peppy Heating and Cooling is a local and family-owned HVAC company that was founded in 2016 by husband and wife Brett and Tenley Shannon. They have made it a point to always listen to the customer and they have received some of the highest credentials, such as being a part of the reputable Ductless Directory, which only includes contractors that are factory authorized, trained, and qualified in ductless installation. They serve the Treasure Valley area, including Meridian, Caldwell, Nampa, Payette, Eagle, Emmett, and Fruitland, all in Idaho.

Those who would like to know more about the HVAC services provided by Peppy Heating and Cooling can visit their website or contact them through the telephone.
