Muscatine Urgent Care Clinic Offers Fast Diagnosis and Treatment

November 28, 2023

MUSCATINE, Iowa - November 28, 2023 -
Amana Care Clinic - Muscatine is a walk in clinic in Muscatine, Iowa, that offers quick diagnosis and treatment for patients that require urgent care for non-life-threatening illnesses. The key advantage of their services is that patients don?t have to set an appointment. They can just walk in and they offer faster, more affordable, safer, and more convenient option compared to emergency rooms, hospitals, and other local health clinics. Patients benefit from full use of their state-of-the-art facilities, exam rooms, X-ray and lab equipment. They also provide an online reservation option where patients can visit a nurse of physician virtually in the safety and comfort of their room.

They want to emphasize that they are focused on providing quick treatment for emergency but non-life-threatening health problems. Examples include: abrasions; bites; burns; wound follow-up, wound recheck, dressing change, and removal of sutures; back discomfort; cut or laceration, needing stitches; impetigo; cold symptoms such as fever, cough, or sore throat; childhood illness such as pink eye, rashes, or eye symptoms; diarrhea; ear pain or infection; fractured bone; injury of the ankle, knee, foot, wrist, elbow, or hand; joint pain; fish hook removal; muscle injury ? pull, strain, sprain; sports physicals; sunburn; full lab services; rash; sinus pain or infection; vaginal discharge; x-rays; urinary tract infection; and other minor health problems.

For serious and life-threatening health issues, patients or their loved are advised to call 911 or go to the emergency room of the hospital or clinic. Medical problems that need to be treated in the hospital and regular clinics include: serious difficulty breathing; change in mental status (such as unusual behavior, confusion, or difficulty arousing); severe bleeding that won't stop; choking, coughing or vomiting blood; fainting or loss of consciousness; chest pain; head or spine injury; severe or persistent vomiting or diarrhea; burns or smoke inhalation; near drowning; feelings of wanting to harm oneself or others; sudden injury due to motor vehicle injury; sudden dizziness, weakness or change in vision; swallowing a poisonous substance; a deep or large wound; carbon monoxide exposure; sudden blindness or severe eye injury; abdominal pain; partial or full

paralysis; vaginal bleeding (non-pregnancy); sexual assault; and pregnancy related problems.
