# Lusk Eye Specialists Hires Skilled Optometrist Dr. Caleb Francis

*November 16, 2023*

November 16, 2023 -
Shreveport, LA ? Lusk Eye Specialists has made the announcement that they have added Dr. Caleb Francis to their team at their Shreveport and Minden locations. Located at 451 Ashley Ridge Blvd, Shreveport, LA 711006, and 3 Medical Plaza, Minden, LA 71055, respectively, he will offer his eye disease management and pre- and post-operative support to both clinics.

?I greatly look forward to joining the Lusk team,? said Dr. Caleb Francis. ?Lusk Eye Specialists is unique because it is, at its core, a family practice. They are in the habit of treating one another as family, and that level of compassion extends to the patients, too.?

After completing his Doctor of Optometry from Northeastern State University Oklahoma, College of Optometry, Dr. Francis earned a great deal of clinical and patient care experience from NSUOCO and clinics in the Cherokee Nation in Northeastern Oklahoma. He also completed an externship at the Jack C. Montgomery Veterans Affairs Medical Center.

Dr. Francis enjoys working with patients of all ages and has a particular interest in eye disease management.

He specializes in ocular diseases, including glaucoma, macular degeneration, diabetic retinopathy and other diabetes-related eye care. He also brings a great deal of experience in pre- and post-operative care for cataract and refractive surgeries. This experience will help Lusk Eye Specialists and its patients, especially since the practice fields so many LASIK and cataract surgery candidates.

?From a young age, I have always dreamed of being an optometrist,? said Dr. Francis, ?My desire was to have a career that allowed me to make a positive impact on other peoples? lives. Growing up, I was amazed by what eye doctors were able to do for people. They say that the eyes are not just a window into someone?s soul, but to their health, too. This role at Lusk will give me the opportunity to pursue my dream and connect with patients on a personal level. I could not ask for anything more.?

Dr. Francis?s inherent compassion is perfect for the family-oriented environment created by Lusk Eye Specialists. In his past roles, Dr. Francis has practiced what he?s preached, which is patient comfort, communication, and taking the extra time needed to put patients at ease.

?My philosophy with patient care has always been to provide attentive and personalized care with an emphasis on communication and education,? said Dr. Francis, ?Even with the mildest exam findings, patients are very appreciative of the extra bit of time I spend to assure that every one of their concerns is addressed. Patients very frequently thank me for explaining what I see in their test results as the exam unfolds. I think it?s easy to take that for granted when things are busy and there?s a lot of urgent distractions, but an extra minute can have a profound impact.?

Lusk Eye Specialists has locations in Shreveport and Minden and has recently extended their services to the communities of Carthage and Marshall. They are currently welcoming new patients from all of these areas. Call today to book an appointment with Dr. Caleb Francis.

About Lusk Eye Specialists

Lusk Eye Specialists is a family owned and operated practice led by Dr. James E. Lusk, M.D., and his two sons, ophthalmologists Bryan and Jeffrey Lusk, M.D. To this highly experienced trio, eye care is all about family. They bring to bear The Lusk Difference, which is unparalleled LASIK and cataract surgery care that focuses on every aspect of the patient experience, including pre- and post-operative care. Additionally, Lusk Eye Specialists offers vision, optical, and eye disease management services. As a whole, Lusk is an advanced practice that goes the extra mile for their patients. https://www.luskeye.com/
