

Sensational Smiles Dental Offers All on 4 Dental Implants in Sydney

November 27, 2023

November 27, 2023 -

Sensational Smiles Dental, a dental clinic in Kirrawee, Sutherland Shire, Sydney, NSW, Australia, is happy to announce they are offering all on 4 dental implants in Sydney and surrounding areas. They recommend all on 4 implants for patients who are missing all of their teeth rather than the traditional implants. The primary benefit of the all on 4 technique is that it can provide full mouth restoration in just 24 to 48 hours. Other tooth replacement options like the traditional dental implants will require several months and several visits to complete.

Dr. Michael Shehata, founder of Sensational Smiles Dental, says, "One of the main advantages of All on 4 implants is that they replace all teeth with just four dental implants, two in the front and two tilted at the back. This means that people with weak or thin jawbones, who previously weren't eligible for traditional implants, can now benefit from this procedure."

Another important benefit of all on 4 implants is that it doesn't need invasive bone grafting procedures, which substantially reduce recovery time. This is because the implants are strategically positioned to avoid the thin or weak part of the jawbones. Furthermore, the implants are permanent, which gets rid of the issues related to removing or adjusting dentures. All on 4 implants are more durable compared to removal dentures. The all on 4 dental plants may actually last a lifetime without requiring additional treatments as long as they are properly cared for.

All on 4 implants are also more convenient and effective. Research found that patients fitted with these implants were able to benefit from enhanced neuromuscular control compared to those who were fitted conventional dentures. Finally, patients fitted with implants can avoid the possible embarrassment and discomfort of dentures that slip out of place. The all on 4 implants provide more flexibility and fit the teeth in a way that feels and looks natural.

Dr. Michael Shehata says, "All on 4 is often suitable for more complex cases and is therefore a possible treatment option for anyone with damaged or missing teeth. Whether you've lost teeth due to injury, have gum disease, or if you have multiple missing teeth, All on 4 might be able to help. However, as with all treatments, your suitability can only be confirmed following a comprehensive examination. To determine whether you are a suitable candidate for All on 4, your implant dentist will review your medical history, take x-rays of your jaw and remaining teeth and consider any lifestyle choices that might impact the success of treatment."

Meanwhile, choosing the appropriate all on 4 dentist in Sydney is vital to get the best results. Since there are many dentists in Sydney who are offering dental implants, choosing the specific dentist to go to could be quite a challenge. They recommend checking on three factors, namely: dentist training, the dentist's experience, and the quality of materials used.

First of all, it is essential to find an implant dentist who has invested in implantology training and education, has taken comprehensive post-graduate courses, and has focused their career on dental implants. The dentist must also have the proper clinical experience with various kinds of implant cases. Lastly, the quality of the materials used is also crucial. They should be made from the best quality materials.

Launched in 2010 by Dr. Michael Shehata, Sensational Smiles Dental is a dental clinic in Sydney's Sutherland Shire that delivers a comprehensive range of general, implant, preventive, orthodontic, cosmetic, and pediatric dental services. Dr. Michael Shehata graduated from Griffith University in Queensland, placed second in his cohort, and was accepted as a member of the Golden Key Club for Academic Excellence. He was an associate dentist for several years before founding Sensational Smiles. He has received training in: orthodontics, implant dentistry, bite reconstruction, and cosmetic dentistry. He has recently finished attending an intensive international orthodontic program and received first class honours in this program.

Those who are looking for full mouth implants can visit the Sensational Smiles Dental website or contact them through the telephone or via email.
