Although we were not able to work together on my website for my business, he gave me 20 minutes of his time earlier today to give me some valuable information about being specific about my wants for a website and other suggestions and advice that I greatly appreciated. He was very professional, straightforward, patient, authentic, and sincere in his approach. Thanks, Jack! I look forward to hopefully working with you one day. Take care and much success to U!?

Another customer writes, ?Jack from Chicago Website Design SEO Company was super helpful and generous with his time when we spoke with him during our initial consultation. He was not afraid to tell it like it is, he shared with us the inside scoop on how the sausage is really made in this business, and he already gave us plenty of great advice to help improve the SEO of our new company's website.
