

Watertight Homes Is Providing High Quality Damp-Proofing Services In Leeds

November 30, 2023

Derbyshire, England - November 30, 2023 - PRESSADVANTAGE -

Watertight Homes - Leeds is providing damp-proofing services to Leeds homeowners and business owners who need to protect their properties from dampness and related issues.

Watertight Homes specializes in damp-proofing services in Leeds and the surrounding areas of Yorkshire and Lancashire. While based in Leeds, it serves clients nationwide, including Manchester, Harrogate, Wakefield, Huddersfield, Cheshire, Bradford, York, Sheffield, Halifax, and Barnsley. The company's highly rated services promise guaranteed results and are offered at a competitive price that has made it the trusted damp-proofing contractor in Leeds for hundreds of its customers.

The full range of the company's services includes damp proofing, basement conversions, basement waterproofing, basement tanking, woodworm treatment, cavity wall ties, condensation, wet rot treatment, and timber preservation. All work done by the company is covered by a guarantee. The company can also offer its clients a 10-year insurance-backed and bonded guarantee available from its suppliers at a small charge.

The spokesperson for Watertight Homes explains why working with the company is a safe bet by saying, "We are well known for our high standards and the professional approach taken by our technicians. We are also members of the Construction Guarantee Protection Services. This means that we are independently checked for quality and training standards and health and safety practices. Moreover, you can also apply for a further optional insurance-backed guarantee, covering the full 10 years. This will protect you from the consequences of company failure and your guarantee is safe even in the unlikely event that Watertight Homes Ltd ceases to trade within the next twenty years."

Established in the year 2000, the company has over 20 years of experience restoring the integrity of properties across Leeds. All its contractors are BBA-approved and accredited, with Triton approval. It provides services for a range of client projects, big or small, including local authorities, architects, housing associations, and private homeowners. Watertight Homes also prides itself on always using the latest and most reliable tools and materials in the industry such as damp-proofing membranes, paint, courses, cream, plaster, and injections.

"Call us today to schedule a damp-proof survey in Leeds," says the spokesperson. "Reliable and professional, we can help you fix, maintain, and improve your property to stop or prevent any damp issues. Check out our reviews to find out what our customers are saying about us."

Watertight Homes has been repeatedly thanked by residents and businesses across Leeds for delivering high-quality professional damp-proofing services with responsive customer service. The company's Google Business Profile even boasts an impressive overall rating of 4.7 out of 5.0 from over 60 reviews with customers writing about the communicative and efficient on-site crew, the supportive office staff, and the affordability of its range of damp proofing services.

This five-star review of Watertight Homes says, "Water getting into my home caused a major panic. Matt knew right away the cause of the problem and his team came along and provided the necessary materials and skills to put the matter right. It's rained heavily since, and I can say everything is now "watertight". What a relief!"

Another customer writes, "I've just had Watertight Homes in to do some work for me and I am really pleased with both the service and work. On the quote side, they took the time to explain all the work that needed to be done and why and gave me an immediate price which was great as you often need to wait for that info. Work-wise - they managed to squeeze me in (being a smallish job) very quickly, which was really appreciated after the bad luck of the damp only showing up following the room in question being re-plastered! Matthew ensured all the work was done to a high standard and was finished in good time. Great job guys, happy to recommend you, and if I have any problems in the future, you'll be my first port of call!"

Readers are urged to find out more about Watertight Homes by visiting its website or contacting the company at 0113 4141 329 or watertighthomes@yahoo.co.uk.
