

California Company Launches Cute Wine Opener In Time For Holiday Giving

December 21, 2015

December 21, 2015 - PRESSADVANTAGE -

Yuno World, a Palos Verdes Estate, California based company, has released their Cutee wine opener just in time for the holiday shopping season. The wine opener is constructed of BPA-free food grade silicone. Haruhiko Harry Nishida, spokesperson for Yuno World, states, "Our wine opener adds additional value because it comes with a wine pourer and stopper as well. If you are looking for the perfect gift for someone, this is definitely a good choice."

Haruhiko Harry Nishida says that the additional pieces allow consumers to effectively seal their wine bottles, keeping out air that could alter the taste of the wine. The pourer enables consumers to pour wine without worries of drips and spills. He also says that the design element itself is what makes it a good gift for those otherwise hard to buy for gift recipients. He explains, "It has an elegant design that will compliment any kitchen or bar decor."

The wine opener is currently available on the Amazon marketplace, and can be viewed at http://bigbarganz.com/g?http://www.amazon.com/Cutee-Stopper-Fashionable-Corkscrew-Premium/dp/B01693B4WY/ref=sr_6_5?ie=UTF8&qid=1449609894&m=ARJPX6N8FQQ0A&keywords=wine+opener&sr=8-85.

Nishida states that it can be used to open wine, beer, and other bottles, and that it will uncork a wine bottle with just one pull, and in about 15 seconds. It works with bamboo as well as synthetic corks.

The company says that those ordering from Amazon can also take advantage of Amazon Prime if they are members and that orders should be placed soon to ensure prompt delivery. "It's going to be the go-to gift for New Year's," states Nishida. He added that those who wish to purchase and receive the wine opener by the upcoming holiday should do so soon to ensure that the product is in stock, as the company expects sales to increase dramatically as the New Year approaches.

Yuno World offers a complete 100 percent satisfaction guarantee on their product and states that any

customer who is not completely satisfied can return the wine opener for a full refund on the purchase. Those looking for more information can visit the company on their official website or on the Amazon marketplace where more information about the benefits of the wine opener can also be seen.
