

SuperiorMaker Door Stops Shown To Be A Handy HouseHold Item

December 18, 2015

December 18, 2015 - PRESSADVANTAGE -

Auckland, New Zealand - The door stops from SuperiorMaker rapidly have become a commendatory product amongst shoppers on Amazon. This makes the product seem as a must have household item. The non-scratching door stops are available in a convenient 4 pack, and are believed to be optimally sized for securing doors at the home or the office.

The door stops have a stylish modern wedge design and are considered to work on all surfaces without adding damages. They can be used to securely pin back doors for children and pets to enhance the flow of traffic in hallways that are swamped.

Made from natural plastic the door stops from SuperiorMaker are a flexible alternative to similar products, that cause scratches to the flooring and don't have the sufficient traction to hold every type of door. That is one of the reasons the door stops from SuperiorMaker are so popular. The door stops may also assist in negating the hazard of accidents and injury to children and pets who make up majority of households by securing the doors open or closed.

David Battagliese in his 5-star review said that the door stops are a great product, "The doorstops are very good they're nice and sticky and really hold the heaviest doors in place I would recommend them because they work well."

According to the reviews, the door stops are seen as more than value for money. Jermaine Clarke described the door stops in his 5-star review as being tremendous, "This item was perfect for my heavy school door. One slide and done, it's so much better than my old wooden door stop."

SuperiorMaker's door stops are currently available for a discounted price on the shopping portal Amazon. Also for a limited time only, orders of the product will result in the shopper receiving two free homecare eBooks. SuperiorMaker's door stops are backed by a 100 percent money back guarantee.
