Local Pest Solutions Launches New Website to Serve Greater Sacramento Area Better

December 12, 2023

Lodi, California - December 12, 2023 -
Lodi, CA - Local Pest Solutions, a family-owned pest control company serving the greater Sacramento area, is proud to announce the launch of its new website. The website design favors convenience and ease of use, offering clients a simple form to request a free inspection or estimate. In addition, visitors can search the archive of blog articles for helpful tips and pest control advice, with new articles posted weekly.

Local Pest Solutions offers a wide range of residential and commercial pest control services, including rodent trapping and exclusion, bed bug treatment, ant control, flea and tick control, spider control, cockroach control, and wasp and hornet control. The company has over fifteen years of experience in the pest control industry and services communities in and around Vacaville, Roseville, Folsom, and Elk Grove.

At Local Pest Solutions, the team is committed to developing authentic and lasting business connections with customers. Technicians constantly update their skills with continuing education and training, prioritizing using the most advanced and eco-friendly materials to solve pest problems for the maximum safety of families and pets.

"Our new website reflects our commitment to our clients," said David Wimpey, founder and CEO of Local Pest Solutions. "We believe that by making it easier for people to request our services and providing helpful information on our blog, we can better engage with our community and continue to provide the high-quality pest control services we're known for."

Before treatment starts, a Local Pest Solutions technician works closely with each customer to review preferences and needs. They discuss the entire process with the customer upfront and obtain their approval so that home or business owners know what to expect regarding the service and price. The team aims to give customers the personal attention they have come to appreciate and expect from a local family-owned business.

For more information or to request a free inspection, visit the new website at https://localpestsol.com.
