Haven Air Conditioning Offers HVAC Services in Orange County

January 10, 2024

January 10, 2024 -
Haven Air Conditioning, a company based in Anaheim, CA, has announced they are offering various kinds of HVAC services in Orange County, such as furnace/AC repairs, installation & maintenance, ductwork, indoor air quality, and more. They have over 25 years of experience in the industry and their team of experienced and certified technicians always provides exceptional customer service and quality services. All these are designed to the keep the HVAC system running smoothly throughout the whole year.

Haven Air Conditioning is an EPA and NATE-certified HVAC contractor, which means that every member of their staff is highly skilled and experienced in the field of HVAC. They offer 24/7 emergency service, so homeowners can call them immediately once they notice something wrong with their HVAC system.

They can provide heating services, air conditioning services, duct services, and HVAC residential services. They offer residential heating installation, maintenance, service and repair; installation of ?top rated? heating equipment; heat pump repair and maintenance services and heat pump installation and replacement services. With air conditioning services, Haven offers top AC repair service; installation of leading brand air conditioners with a long lifespan; free estimates for homeowners; custom cooling system integrations, such as zoning, IAQ, humidification, home automation, and more; and AC cleaning services.

Meanwhile, their duct installation team offers lifetime quality duct repairs and installations. Whatever the problem is they can offer a solution. For instance, they offer a remedy for a home with asbestos ducts to ensure the home will be healthy again. Or if there are airflow issues, they can quickly troubleshoot the problem and offer a fix as promptly as possible. And they can assure homeowners that they will always provide reliable, high quality, and affordable duct installations that allow the homeowner to have lower energy bills.

They are also prepared to provide advanced HVAC system applications homeowners in Orange County.

These include: Title 24 approved zoning system design & installation; superior-quality humidification systems; de-humidification systems to prevent mold growth and top IAQ systems integrated into the central HVAC equipment.

The high quality of their services is attested to by their five-star reviews. On Google, they have an overall rating of 5.0 out 5 stars. On Yelp, they have an overall rating of 4.8 out of 5 stars after receiving 256 reviews. For instance, in one recent review, Arnel S. gave them a five star rating and said, ?Overall, a wonderful experience with everyone at Haven from calling the office for a timely schedule to get a quote to final HVAC installation. I got 3 estimates and Ike came in for Haven. He made the best presentation out of the 3. I know now nothing about having a new furnace and air conditioning installed, but Ike patiently educated me and answered all my questions. I liked Ike's personality and presentation so I decided to work with him first. He communicated very well and promptly through voice and text. He worked diligently with me on the price and later in the financing process. Turns out, I didn't need to call the others at all as Ike got me the best price/value so I decided to give him the job. Also, the timing of the job, which was before Christmas, had something to do with the best price. Absolutely satisfied with the entire service/process and quality provided by this company. Highly recommend!?

Founded in 2020 by Marie Linteau, Andreas Laux, and Julien Laux as the residential division of Mighty Ducts Heating & Cooling (established in 1997), Haven Air Conditioning has grown into one of the most respected air conditioning companies in the region. They serve customers throughout Orange County, California and nearby areas. The company offers a broad range of air conditioning systems, including central air conditioners, heat pumps, indoor air quality solutions, furnaces, and air duct systems. They also offer a variety of services, including installation, air duct cleaning, repair, dryer vent cleaning and maintenance.

Those who are interested in learning more about the HVAC services provided by Haven Air Conditioning can visit their website or contact them through the phone or by email. They are open from 6:30 am to 8:00 pm, from Monday to Friday and from 8:00 am to 3:00 pm in Saturdays and Sundays.
