Mount Pleasant Roofing Company Clean Cut Roofing & Siding Is Offering High Quality Asphalt Shingle Roofing Services

December 19, 2023

December 19, 2023 -
Clean Cut Roofing & Siding, considered by many to be the best roofing company Sanpete County, Utah, has to offer, is urging homeowners in Mount Pleasant and nearby areas to find out more about its asphalt shingle services.

Asphalt shingles are the most commonly used roofing materials in the United States. Their versatility, affordable cost, ease of installation, and longevity have made them the favorite roofing material for roofers and homeowners across the country, even those living in regions with vastly different climates. They are also very durable, with the ability to combat strong winds and rain if installed correctly by roofers with the right experience and expertise. Finally, homeowners also get a chance to mix and match colors and designs as they are available in many varieties.

?When you trust us to install, maintain, repair, or replace your asphalt shingle roof,? says Vern Akauola, the owner of Clean Cut Roofing & Siding, ?you can rest assured that it is going to last you anywhere from 30 to 50 years. Our steady hands and decades of experience ensure that every job is performed to

specification and with the attention it deserves. Though we cannot give you estimates for your roofing job, as each one is different in size and scope, you can expect an average roof replacement to cost anywhere from $10,000 to $18,000. At Clean Cut, you get the best workmanship for competitive prices that others just cannot match.?

With over 25 years of experience in roofing and siding, Clean Cut offers a range of services such as commercial roofing repair, commercial shingle roofing, commercial metal roofing, residential roofing, roof installation, roof repair, roof inspection, and siding installation, or repair. Apart from roofing Sanpete County homes, the company also serves nearby Sevier County, Emery County, Carbon County, Millard County, and Juab County.

As a recognition of the quality of its services, Clean Cut Roofing & Siding has been voted as the Best of Sanpete County Roofing Contractor for 8 years running. The company is also one of only five roofing companies in the state of Utah to be certified as a Malarkey Emerald Premium Contractor. This means customers get a completely non-prorated material warranty as well as a 25-year workmanship warranty on all of its shingle re-roofs using Malarkey Roofing Products.

Clean Cut Roofing & Siding has received the love and admiration from the Mount Pleasant community only reserved for other select few contractors like it that have been serving the area for decades. Its Google Business Profile even boasts a flawless overall rating of 5.0 out of 5.0 from over 30 reviews. Customers thank Vern and his crew for the experienced and knowledgeable sales staff, the punctual and professional crew members, and the supportive customer service throughout.

A recent review says, ?Our first experience was with Josh the salesman. He was very informative and gave us a few hints. Not at all pushy. We felt good about doing business with this company after talking with him. The workers were experienced and knowledgeable. They did a beautiful job. Our siding installer even installed siding where I thought it was impossible. Our 135-year-old home looks fabulous. I would highly recommend this company.?

Another customer writes, ?What a pleasure to have Clean Cut do our roofing job. They came out and looked at what needed to be done, showed pictures of what was going to be repaired, gave a quote, and told us when the time was for the job to start. Tanner did such a great job and explained the questions I had about a few items. Cleaned up the job site. When the job was done, I was assured that if we had any problems to contact them and they would fix it. Thank you for being such a great company to deal with.?
