

Top Plumber in Mesa Unveils New Hydro Jetter

December 13, 2023

December 13, 2023 - PRESSADVANTAGE -

Mesa, Ariz. ? The Plumber, a top local plumber in Mesa, AZ, is proud to announce a significant enhancement to their service arsenal with the acquisition of a state-of-the-art hydro jetter. This cutting-edge equipment promises to revolutionize drain cleaning services for both residential and commercial clients, reinforcing The Plumber's commitment to delivering top-tier plumbing solutions.

The hydro jetter, known for its high-pressure water jetting capabilities, marks a substantial upgrade to The Plumber's already wide range of services. This investment underscores the company's dedication to staying at the forefront of the plumbing industry by adopting the latest technology and tools to provide efficient and effective solutions to the surrounding communities.

The key features of The Plumber's new hydro jetter include:

High-Pressure Cleaning: The hydro jetter utilized by The Plumber is capable of delivering high-pressure water streams up to 4000 PSI, effectively clearing even the most stubborn blockages, such as grease, debris, tree roots, and mineral buildup. This ensures thorough and long-lasting results.

Precision and Safety: The equipment is engineered for precision, enabling The Plumber's skilled technicians to target and eliminate blockages without causing any damage to their customer's plumbing system. This approach ensures the longevity of pipes and minimizes the need for future repairs.

Eco-Friendly: Hydro jetting is an eco-friendly method of drain cleaning that relies on the power of water alone, eliminating the need for harsh chemicals or other environmentally harmful substances. This makes it a responsible choice for homeowners and businesses, aligning with The Plumber's commitment to sustainability.

Versatility: With over 300 feet of hose, the hydro jetter's versatility allows it to address various drain and pipe sizes, making it suitable for a wide range of plumbing applications, from small residential pipes to large-scale commercial systems.

It is a common misconception that merely snaking a drain effectively clears clogs and cleans drains. However, Josh Vidal, owner of The Plumber posits that this is not accurate. While snaking a drain can effectively clear a clog, the utilization of our state-of-the-art hydro jetter is the most effective way to actually clean drains. A clean drain gives a clear visual of the issue at hand so customers can rest assured that our team will recommend and provide the best service to fit their needs.

The Plumber's hydro jetter is operated by a team of highly trained and experienced technicians, ensuring that every cleaning task is performed with precision and professionalism. For those in need of drain cleaning or other plumbing services, The Plumber encourages customers to reach out and experience the superior results of their new hydro jetter technology.

About The Plumber:

As a fixture in the plumbing industry for over 25 years, The Plumber has cemented its status as a trusted name in Mesa, Scottsdale, Tempe, Gilbert, and neighboring communities since its establishment in 2018. They pride themselves on offering an extensive array of plumbing services, catering to both residential repairs and large-scale commercial projects, all executed with an unwavering commitment to quality, professionalism, and unwavering customer satisfaction. It is also important to note that The Plumber offers 24/7 emergency services because they understand that urgent plumbing issues are not restricted to the 9-5, Monday through Friday schedule.
