December 23, 2015 - PRESSADVANTAGE -

Downing-Frye Realty, a business in Naples, FL, is proud to announce that, as part of the Gulf Coast Group, they provide confidential buyer and seller representation for the Naples luxury real estate market. They are tech-savvy and utilize highly innovative methods for marketing and selling luxury homes and condominiums in Naples. Their Naples FL real estate services have been very positively received.

"We are here to help people find the most beautiful luxury homes for sale Naples FL has to offer, or to help them sell them," says Scott Twait from Downing-Frye Realty. "However, the luxury homes market is a market that has to be dealt with in a confidential manner. Sellers often don't want people to know properties are empty, and buyers don't want the world to know that they are moving in. We specialize specifically in luxury properties in Old Naples, the Moorings and Park Shore and understand the sensitive nature of these transactions."

The Gulf Coast Group currently offers a number of luxury homes and condominiums in Naples. Their goal is

to be the best Old Naples FL real estate professionals there are, and they have built a solid database of clients, both buyers and sellers, who will always come to them. Their service is known to be professional and reliable, focusing on making the entire experience more enjoyable.

Their Moorings Naples, FL real estate offerings have been very positively received by their many clients. "Angela & Scott are a pleasure to work with," says one happy family. "Their knowledge of the Naples market was key in finding the perfect condo for us. The focus was on identifying the criteria that were important to us, and highlighting the pros and cons of different properties and locations. Everything was handled efficiently, professionally, and also with personal care and attention."

For further information about their Park Shore Naples FL real estate offerings, or those in other areas of Naples, FL, people are encouraged to view the Gulf Coast Group YouTube video on <https://youtu.be/xiUsNdoM8UQ>. This introduces the company and explains the work that they do in much greater detail.
