

Dr. Mark Hickman Offers Affordable Reversal Vasectomy to Enable Men to Become Fathers Again

December 21, 2023

New Braunfels, TX - December 21, 2023 - PRESSADVANTAGE -

Dr. Mark Hickman, MD, FACS, a highly skilled microsurgeon in New Braunfels, TX, is offering an all-inclusive affordable cost of vasectomy reversal in his mission to allow men to become fathers again. He is offering two all-inclusive affordable options, with one priced at \$3,300, which includes local anesthesia and an oral sedative, while the other option is priced at \$4,200 but includes IV sedation administered by a board certified anesthesiologist. Aside from allowing men to become dads again, vasectomy reversal is also being used to fight the onset of male depression.

Dr. Mark Hickman is a recognized expert in laparoscopic procedures and he has even invented several surgical instruments and received a U.S. patent and was able to establish the reputation of being a contributor to several minimally invasive surgery inventions. He is also very much motivated by his Catholic faith, which frowns against vasectomy and other artificial forms of contraception. Thus, he is active in discouraging men from getting a vasectomy by telling them stories about vasectomized men who regretted their decision to get a vasectomy. Some men felt like something was missing in their lives and there were signs of mental depression. He is therefore on a mission to convince more men to get a vasectomy reversal.

Dr. Hickman is urging not just men in New Braunfels but also in other locations in Texas, such as Dallas, Fort Worth, Austin, Houston, and San Antonio, and those from other states, including Louisiana, Arkansas, Oklahoma, and other places to come to New Braunfels, which happens to be a tourist town. He has negotiated exclusive travel deals with various local hotels in the area to allow his out-of-town patients to save as high as 50 percent on their hotel accommodations.

Located in New Braunfels is Schlitterbahn, which is the biggest water park in the county and can offer an entire day of fun and entertainment for both adult and kids. It offers a staggering variety of waterslides, river rides, and adventures ranging from mild to wild. This waterpark and resort is open all year round.

Also of interest to tourists in New Braunfels are the Guadalupe River and Comal River. The Guadalupe River State Park offers visitors a unique experience in the "river through time." Having four miles of river frontage, the Guadalupe River offers various kinds of activities, such as swimming, fishing, tubing, and canoeing. People can also go camping, hiking, cycling, picnicking, bird watching, and horsing. Not to be outdone, the Comal River has the reputation of being the shortest navigable river in Texas. It is a tributary of the Guadalupe River but its clear water, mild currents, and various lost items left by tubers have made the river a favorite spot for scuba diving. Divers are present during summer and winter because the temperature of its waters remain at 72 degrees Fahrenheit all year round.

Also of interest to many people in New Braunfels is the village of Gruene, which has maintained the ideal balance between progress and preservation. As such, it provides a snapshot of Texas history and culture with its 15 walkable acres, which is called the National Historic District, offering visitors great shopping, dining, and dancing experiences within original township buildings.

Launched in 1988, Dr. Mark Hickman's New Braunfels clinic is where he performs his expert microsurgical and minimally invasive methods for vasectomy reversal. He received his general surgery residency training from the University of Texas Health Science Center at San Antonio and it was during this time that he was exposed to the microsurgery techniques that were then being applied in cosmetic and reconstructive surgery. He immediately recognized the different benefits that minimally invasive microsurgery can afford his patients. Thus, he decided to focus on using microsurgery techniques practice specializes in vasectomy reversal.

Those who are interested in learning more about the affordable cost of vasectomy reversal can visit Dr. Hickman's website or contact him through the phone or via email. The practice is open from 8:30 am to 5:00 pm, from Monday to Friday.
