

Upgraded Donut Cushion Released By LILIYO

December 23, 2015

December 23, 2015 - PRESSADVANTAGE -

LILIYO, a business in Los Angeles, California, is proud to announce that they have recently upgraded their donut cushion, making it even more comfortable. Founded in 2014, this is a small family-owned "comfort lifestyle" company that has helped many consumers in finding solutions for pain relief through their Supplies and Comfort Lifestyle Products. Their newly upgraded cushion is already proving to be very popular.

"We live very sedentary lifestyles nowadays, be that by choice or by necessity," says a representative from LILIYO. "Unfortunately, this has led to a wealth of physical issues and discomforts. We want to help people address these issues and feel our newly upgraded donut cushion is the perfect item for that."

The company specializes in creating comfort products that enhance and make everyday living a little easier and more pleasant. LILIYO is focused on wellness, health solutions, and pain relief products. The company pays very careful attention to product design, quality, effectiveness, and easy product usability. The company's mission statement is "to inspire, enhance, and deliver wellness solutions for living life in comfort - one person at a time". With their new donut cushion, they aim to help people who suffer from coccyx pain and other ailments.

The sciatica pillow has long been very popular and people are appreciative of the new comfort features it

offers. "The memory foam in the pillow is very accommodating, I found that it takes about one or two days to really adjust," says Ria. "After the initial period, the foam easily sinks with your body when you sit on it. It bends very ergonomically and allows me to sit in the most suited position without tailbone contact. It is absolutely one of the best memory foam seats that I have sat on. I can sit on it for six to seven hours straight while I work on my laptop. The quality is unparalleled. Even if you don't have a tailbone injury, the pillow still provides a very pleasurable seating experience."

The company has also released a new YouTube video on <https://www.youtube.com/watch?v=781-a0Hj640>. This video provides further details about the cushion and its benefits.
