

Dually Truck Mud Flaps Available From Go Industries Inc

December 29, 2023

Richardson, TX - December 29, 2023 - PRESSADVANTAGE -

Texas truckers in search of quality wheel mud flap sets and accessories may be happy to hear about Go Industries, Inc. and their wide array of truck related products. Based in Richardson, the company supplies high quality mud flap sets for dually trucks at highly competitive prices.

Any truck on the road requires mud flaps, and in many states it is against the law to drive a truck without map flaps. Go Industries Inc supplies dually truck mud flaps that are made of non-recycled rubber, and the company has mud flaps for both all dual wheel trucks and single wheel trucks. Additionally, the company has stainless and diamond tread accessories for all types of flaps.

?Whether you have a work truck, a city truck or an off-roader, mud flaps can protect your truck by deflecting debris away from the fender wells,? says Go Industries Inc. ?Your tires are constantly contacting all kinds of potentially paint-damaging things like mud, tar and small rocks. While your truck?s fender wells are designed to contain stuff like this, they can?t do it all, and that is where mud flaps come in. Fender walls do not reach

down to the tires, leaving a substantial area unprotected, in turn allowing your tires free to flip mud, rocks, salt and more out violently toward your paint as well as other drivers behind you.?

The term "Dually" refers to dual rear-wheel trucks, a type of heavy duty pickup truck characterized by two rear wheels on each side. Having two rear wheels allows for greater contact with the road, which then means better traction, stability and balance. These types of trucks generally have large rear fenders which house the dual rear wheels. However, the presence of large dual wheels in the rear makes it necessary to have mud flaps. Duallys need larger, more durable mud flaps than other types of trucks, and it is these types of mud flaps that can be found in abundance at Go Industries.

There are many reasons why mud flaps are mandatory in most states. Installing the right mud flaps can save both the driver and other motorists on the road a lot of money by minimizing the amount of damage caused by all the small debris picked up by the wheels of a truck.

Go Industries' selection of mud flaps for trucks is particularly expansive. The company has flaps for all kinds of dually trucks and at almost every price point. The most affordable mud flaps available at Go Industries are priced at \$37.41, and the most premium cost \$209. This means that all truck drivers, no matter their budget and needs, can be sure to find exactly what they are looking for on Go Industries' website. The company has a form where customers can fill in the year, make, model and type of flaps they want and then make a purchase quickly and easily.

All of Go Industries' products are either made in Texas or brought in from other trusted all-American suppliers. The company prides itself on only providing the very best locally made truck accessories. The list of accessories available at Go Industries Inc. includes grille guards, bumper replacements, steps, cargo rack systems, tailgates and more.

The company also provides custom manufacturing services. With over 40 years' worth of manufacturing experience, Go Industries can produce high quality custom products. All of the manufacturing is done locally, and all pricing is meant to be as competitive as possible. Some of the manufacturing work Go Industries is able to handle includes tube services, sheet metal work and other services, such as design, assembly and packaging.

The company has received a number of excellent reviews from pleased customers across the state and beyond. One customer shares, "Ordered a headache rack for a work truck on 8.25. Received tracking the same day, and it was delivered the following Thursday. Finally installed it last weekend, and it looks great. Looking into putting a rancher on my truck as well."

Customers may learn more about the wide selection of truck mud flaps available from Go Industries on the company's website. Similarly, they may call or email Go Industries directly to follow up on any other inquiries.
