Public Adjusters Dallas TX

Intercoastal Public Adjusters Shares The Benefits Of Hiring A Public Adjuster In Dallas

January 04, 2024

January 04, 2024 -
Intercoastal Public Adjusters, a nationwide firm offering commercial and residential property claims adjusting services, is sharing the benefits of using a public adjuster for property owners in Dallas, TX.

Disputing an insurance claim can be a difficult and stressful process. Most property owners don?t have the time to dedicate to the process as it can disrupt their day-to-day routine. Additionally, the paperwork, language, and errors that are involved could delay the process, which can result in a lengthy wait for settlement.

?There is a real need for education surrounding property damage insurance claims,? says the spokesperson for Intercoastal Public Adjusters Dallas. ?For example, most people don?t even know that you can hire your own representation when filing a property claim. Next, property owners rarely know exactly what their property insurance covers making it difficult to assess the amount of loss. A public adjuster can take this responsibility off your shoulders and present an accurate assessment that gives you the best chance of getting fully recompensated by your insurance company.?

Public adjusters work independently from the insurance company. Their primary job is to assess damage to the property, document the loss, and negotiate a settlement. Without their help, homeowners can miss out on receiving funds for several kinds of damages that could be included in the policy. In most cases, they also help homeowners avoid filing multiple insurance claims by getting all the relevant information documented the first time.

The spokesperson advises Dallas property owners who are filing for insurance by saying, ?Document the damage caused by the hurricane by taking pictures or videos of the damage, if possible, as it will help speed up the claim process. Make sure you have a safe vantage point while doing this. You should also keep all receipts and expenses to support your claim.?

With over 30 years of experience in the industry, Intercoastal Public Adjusters solely represents policyholders and not insurance companies. The company?s services include generating and presenting professional estimates and supporting documents for all damages sustained to a property, working with all kinds of insurable losses including water damage, storm damage, hurricane damage, smoke or fire damage, and tree damage, negotiating with the carrier to ensure the claim is maximized, helping clients file HOA and COA claims, and more.

Commercial and residential property owners across the country have thanked Intercoastal Public Adjusters for helping them when they were denied a home, business, or HOA claim. The firm is also heavily praised by its clients for helping them get indemnified to the maximum limits of their policy. In their reviews, clients recommend Intercoastal Public Adjusters? team members by noting their professionalism and diligence, patience in answering all questions, and responsive customer service.

One client writes, ?The main reason you will need to deal with Intercoastal is because something unfortunate has occurred in your life. We can personally say that Intercoastal will make the unfortunate a lot easier to handle. The insurance company will come out acting like they are your friend and Intercoastal will come out and actually be your friend. They will fight for you; they will keep you informed, and they will allow you to rest easily while they do what needs to be done. We couldn't recommend them enough. Our only regret has been that we didn't contact them at the beginning of the claim process. Thank you very much, Intercoastal.?

Another client says, ?Irma hit us with wind-driven rain. We had several inches of water in our condo. The restoration company charged thousands. Furniture and flooring were damaged and needed replacement. My insurance agent wrote up about $600 in damages. REALLY!! Thank goodness for Intercostal Public Adjusters. They helped me cover all my expenses to replace and fix. Several other owners in my complex also received great results from using them. You have nothing to lose and everything to gain by working with them.?
