

Affordable Massage Clinic Offers Massage Therapy In Puyallup

January 30, 2024

January 30, 2024 -
Puyallup, WA based Unlocking The Body Massage Therapy is making comprehensive massage services more accessible to the wider public. As an affordable massage clinic, they carry a vast array of fully customizable, low cost and high value massage therapy packages.

Massage therapy is one of the most effective ways to address pain and discomfort anywhere in the body. When done by a professional, massage therapy can address discomfort and pain across the body, and many Puyallup clients have already experienced the benefits of massage thanks to Unlocking The Body?s low prices.

One of the massage clinic?s most popular services is their Sports Recovery Premium massage package. This is due to the fact that athletes (at all levels) are more likely to experience problems following workout sessions, practice on the field and so on. This recovery package is recommended for anyone who engages heavily in sports.

?Our Sports Recovery Premium massage package is ideal for the active individual who is sore, stiff or achy

from lactic acid breakdown,? says Unlocking The Body. ?Those engaging in CrossFit, sports, running, outdoor activities and so on, or individuals who've just started a workout regime would benefit most from this offering. With our help, you can concentrate on a troublesome area or receive a full body massage session.?

The massage clinic continues, ?Your care will be discussed pre appointment to tailor this treatment specifically to your needs. Treatment includes a combination of the following: Moist Heat Clay Pack, Deep Tissue Massage with Lymphatic Drainage, Detoxification Essential Oils, Stretching, Cupping and/or Kinesio Taping (if needed) and an application of a Sports Analgesic.?

In pursuit of ultimate flexibility and client-friendliness, the clinic provides clients with the option to build their own massage package. While there are several, high value packages already available, some clients may prefer to come up with their own package that includes only their favorite kinds of massage therapy.

The first step when building a massage package with Unlocking The Body is to choose the length of the massage. Clients can choose between 60, 90 and 120 minute sessions. Both new and returning clients have full access to every one of the various ?Build Your Own Massage? options available at Unlocking The Body. The next step is to choose the kind of massage and any massage add-ons that may be wanted.

The point of having total control over how the massage therapy session is structured is to make it so clients can craft their own unique experience. Finally, they can choose a signature item from Unlocking The Body?s selection. Soy candles are among the most popular items, as are gift certificates. Clients are free to choose, and Unlocking The Body is always more than happy to help those who are unfamiliar with massage therapy pick the right packages, add-ons and take-home gifts.

At Unlocking The Body, they understand the importance of having some sort of relationship with the massage therapist. Each provider has a unique treatment style that comes with its own unique modalities and specializations. Clients are invited to read about each of the clinic?s therapists before deciding who they would prefer as their massage therapist.

There are a number of reasons why clients choose Unlocking The Body over other massage therapy clinics. ?We offer many modalities of Massage Therapy to meet the needs of many bodies. Our staff have received extensive training in their specialization modalities,? the clinic says. ?We never require you to sign up for any contracts or automatic deductions from your checking account. We are open six days per week with many appointment time options and Therapists for your convenience.?

On the topic of therapists, the clinic says, ?Our multiple, diverse practitioners have years of experience and have been through rigorous training and continuing education ensuring they are equipped to handle even the most complex of issues. Each Therapist has a specialty and specific passion in the field. Read their bios to

learn more.Our clinic wants what is best for you as an individual and does not force our staff to be salespeople. We only recommend what we feel is in your best interest and not what is best for our paycheck.?

For more information on Unlocking The Body and their many services, visit the following link: Massage Therapist Puyallup. Clients are similarly welcome to phone the massage clinic directly to discuss their needs further.
