

Seattle Pool Builders Announces Services And Points To Popular Swimming Pools As Inspiration

December 24, 2015

December 24, 2015 - PRESSADVANTAGE -

Seattle, Washington based Seattle Pool Builders has announced the availability of its pool construction services and points to the list of the most popular swimming pools in the world as inspiration. The company is a distributor and installer of in-ground and above ground swimming pools in the Seattle area.

Jeff Martin, spokesperson for the company states, "The list is great. There are many different pool styles and those who don't know what they are looking for can get a really good idea of what their pool should resemble."

Martin says that while it is unlikely many people will choose one of the elegant in ground pools found in the list, it can give homeowners an idea of how they would like their pool and patio area to look.

The list of the seven most stunning swimming pools was featured on Culture+Travel, and features pools from Copenhagen, Arizona, Algarrobo, Berlin, Koh Samui, Zambia, and Thassos. The number one pool, which is found on Thassos, an island in Greece, is carved directly into rocks and lies overlooking the sea.

"It really is an exotic and beautiful scene," states Martin. He goes on to say that Seattle Pool Builders can design and install a pool for their customers that could resemble any of the pools on this list. The company also provides swimming pool heaters, so homeowners in Washington can enjoy their exotic oasis even during the cooler months.

The company has been providing swimming pool installation for many years, and Martin says that they have seen several unique pools in their time. He says that the pools on the most stunning pools list are all unique, and give something special to their properties, an aspect that he and his staff strive to provide their customers from the design phase to complete installation.

More about Seattle Pool Builders can be seen on their official website, where those interested can learn more about the design and installation of an in ground pool or an above ground pool. Martin states that the

company works with homeowners and their unique needs to ensure that their pool adds value and beauty to their properties as well as offer them the relaxation that they need.
