AZ Real Estate Team Shares Update On Thanksgiving Outreach

January 16, 2024

January 16, 2024 -
HouzAZ & Associates, based in Glendale, AZ, recently published a YouTube video about their trip to the St. Mary's Food Bank during the week of Thanksgiving (2023). As part of their community efforts, the team handed out Thanksgiving turkeys to needy families in the Phoenix area.

?HouzAZ believes in giving back to the community, and in the YouTube video, we all share things we are thankful for,? comments a representative from the company. The video in question can be found on the company?s official channel of the same name: HouzAZ & Associates. See more here: https://www.houzaz.com/blog/giving_back_st_mary_s_food_bank/68980.

The team considers community support to be a cornerstone of their lives and careers, and they take every step possible to ensure their actions reflect this belief. They say no act of kindness is too big or too small, and they encourage others to participate in a similar manner wherever the opportunity may arise.

Last year, the team handed out Thanksgiving turkeys so that families in need would find it easier to celebrate together. While they hope this will inspire others to do likewise, they also intend to do more in the years to

come. For that matter, HouzAZ & Associates has other plans for 2024, and more information regarding this will be shared in due course.

Those interested in keeping up with HouzAZ & Associates are welcome to follow their social media platforms. Any news regarding their upcoming excursions, projects and more will be posted here when available. Find them on Facebook to get started: https://facebook.com/HouzAZAssociates.

The real estate agency adds that team participation in community support activities also has the benefit of making them more aware of the needs of their clientele. Since the team primarily works with home buyers and homeowners, they have a responsibility to help people either find the home of their dreams or make a sale that fulfills their requirements, respectively. HouzAZ & Associates takes this responsibility seriously, and it shows in their work.

As such, anyone who wants a real estate expert in their corner is welcome to reach out to HouzAZ & Associates today. The agency has already worked with countless clients to achieve their goals, and they always look forward to helping the community flourish in any way they can.

For instance, Toby S. was exceptionally pleased with his experience. His review says, ?Lisa Glomski knocked it out of the park with our home sale! We had 7 showings and multiple offers before the listing ever went public. She was able to get our home sold before it even hit the market! Not only is she very thorough and detail oriented, she cares about her clients and worked very hard to ensure that we got the price we were asking for. Communication throughout the whole process was concise and no-nonsense. Seamless transaction. I absolutely loved working with her and wouldn't hesitate to do so again. If you're smart, you'll hire her to sell your home. You will not be disappointed!?

The team does not consider any project a success if their client is unable to make informed decisions regarding their future. Since few are familiar with the intricacies of Arizona real estate, HouzAZ & Associates makes it their business to share all relevant insights when necessary, thus ensuring their clients are always ready to take hold of every opportunity that comes their way (and can similarly avoid any unwanted pitfalls). This is the secret behind their success.

?I was so blessed to have found such an amazing team for my third home,? says Luisa N. ?Amanda and Christy answered all my questions, kept me updated with any changes, documents, disclosures and status updates. Amanda educated me in AZ areas and even provided me with a map where you're able to see the current crime rate, ect. Christy provided me with a list of Utility phone numbers and websites, which to be honest, is very helpful when you buy in another state. I will recommend this great team to my family and friends.?

HouzAZ & Associates recommends that buyers or sellers check out their official website to start considering their options: https://houzaz.com. Once they are ready, they may contact the team directly for more personalized assistance.
