

Designer Home Spas Launched to Offer Luxury Home Spas

January 03, 2024

January 03, 2024 - PRESSADVANTAGE -

Designer Home Spas, a company based in Miami, FL, has recently launched to offer luxury home spas and more. These luxury home spas are manufactured by the company's European partners. These spas include the: Cube, Cube Ergo, Pure, Home, Quantum, Sense, Essence, Velvet, Aqualife 5, Martinique, Bali, and Hydra. These home spas can be used for hydrotherapy, which is an effective and natural way to address arthritis and muscular issues. By combining hydrotherapy with one's wellness routine, it is possible to minimize pain and stiffness, enhance blood circulation, and improve relaxation and well-being.

The Cube spa offers luxury and elegance for exclusive private and residential use. It integrates Zen-like minimalist lines, contemporary architecture and one-of-a-kind features. Its non-ergonomic structure enables users to move freely within the spacious four-person hot tub. Aside from relaxation and therapy, this hot tub also enhances physical, emotional, and mental well-being with its 12 hot air jets, 27 pressurized water jets, surround Bluetooth audio system, and aromatherapy system.

Meanwhile, the Aqualife 5 is considered to be the most practical and versatile hot tub on the market. This is a five-person hot tub with low walls to allow it to easily fit through any standard door in the home. It is equipped with five large seats and a fully-equipped lounger. In addition, its rotating massage jets for drainage, localized high-pressure hydromassage jets, foot massage jets, and rotating anti-stress massage jets make it a genuine hydromassage center.

A spokesperson for Designer Home Spas says, "Hot tubs are a great solution for hydrotherapy, as they provide all of the benefits of water therapy in a convenient and accessible format. Hot tubs offer a warm and inviting environment that can be used year-round, and they come equipped with powerful jets that can be adjusted to target specific areas of the body. The jets can be used to provide a massage-like experience that helps to soothe sore muscles and reduce tension. Hot tubs also offer a relaxing and therapeutic atmosphere that can help to reduce stress and promote a sense of well-being."

Meanwhile, Designer Home Spas also offers saunas with their collection of saunas available for viewing at

<https://www.designerhomespas.com/collections/saunas>. These include the: Arti, Nordic Misty, Legend, Hele Glass Luxury, G7S, G6, Hele Glass Standard, Hele Glass Mini, Denali - 6 Person, and Cascade - 4 Person.

The Arti Cabin Sauna is an outdoor sauna from Auroom that is a condensed and sleek alternative to the popular Natura model, offering a fully-assembled sauna that combines style and compactness. It is suitable for spaces with limitations while offering the luxurious and healing sauna experience. It offers a wide window and a terrace, allowing great views of the surroundings.

The Cascade - 4 Person indoor sauna is designed for luxury that combines functionality and aesthetics. The choices of red cedar and hemlock woods provides an atmosphere that is both comforting and aesthetically pleasing. It has a durable, joint-free hemlock floor and multi-level benches that can easily accommodate four people. It is equipped with the Harvia Virta 9kW electric heater with a digital control pad for accurate heat adjustments.

Designer Home Spas is a family-owned business that has partnered with some of Europe's leading luxury home products manufacturers to provide style, comfort, and relaxation to homes across the country. They're committed to providing their customers with the best quality and design luxury home products. The company's founder is an interior designer and an architect and makes sure that their products are not only functional but will also be attractive, adding a touch of luxury to the homeowner's outdoor living space. The company's team of experienced professionals is dedicated to providing exceptional customer service, from choosing the products to installation. By combining their award-winning product and design expertise and their commitment to exceptional service, they strive to provide unique experiences for their customers.
