

Milk Tea Therapy From Dr. Rosemary's Tea Therapy Gains Positive Reviews Among Amazon Shoppers

January 04, 2016

January 04, 2016 - PRESSADVANTAGE -

Naples, FL - Dr. Rosemary's Tea Therapy has recently released a useful product on the number one shopping marketplace. Their product, Dr. Rosemary's Tea Therapy Breast Milk Booster, has gained much appreciation from Amazon online shoppers since its release.

The customer reviews accumulated as of December 2015 showed 78% were five star reviews. This is a good indication of the appreciation customers have for the milk tea therapy. Five stars is the highest rating that any product can receive on Amazon. It demonstrates that the customers have admired the product and its benefits and would recommend it to others for use.

The positive reviews so far have highlighted the effectiveness of the tea to increase breast milk production, its health benefits and how it helped customers to feel relaxed. The milk tea therapy has definitely gotten appreciation from many ages of nursing mothers.

One satisfied customer Fatima Henriques has expressed, "I gave this tea a try not because I was low on breast milk but more because I wanted to keep my milk supplies running. I actually enjoy the taste; it's not bitter like many other teas I have tried therefore for that reason I am able to drink two to three cups a day. Since starting I can say that it has been keeping me full pumping a good 8-9 oz per 3 hours. I am a happy camper."

As indicated by the reviewer the tea is not bitter. According to the company, this is due to the addition of orange peel, spearmint and lemongrass which adds better flavor to the milk tea.

One five star reviewer, Kate commented, "Great for moms that are breastfeeding and need a boost in their supply in a natural way. It is a much better product than tea bags as this isn't pulverized into dust... there are huge pieces of all of the ingredients and a more natural product."

This review confirms the comprehensive blend of loose leaf herbs that comprise the milk tea. The main ingredients include fenugreek, fennel and anise. The tea therapy also contains coriander, organic milk thistle, organic caraway seed and organic red raspberry leaf.
