

# Dana Point Auto Repair Shop Now Under New Ownership

*January 18, 2024*

San Juan Capistrano, CA - January 18, 2024 - PRESSADVANTAGE -

CA based West Coast Tire & Services is pleased to announce that the shop's ownership and management has been taken over by Todd Bennett. Customers are assured that the 5-Star service they have come to expect will continue to be available for the foreseeable future.

West Coast Tire & Services has a strong reputation for being friendly, professional, and above all, reliable, comments new owner Todd Bennett. This made it a strong investment for us, and we will give the team all the support they need during this period of transition to ensure our customers are fully satisfied with their service. If your vehicle is experiencing trouble of any kind, West Coast Tire & Services is and will always be your premier point of service.

The shop offers a variety of auto repair and maintenance services, enabling car owners to have virtually all their needs taken care of under one roof. Bennett observes that many customers have already come to regard West Coast Tire & Services as their provider of choice no matter what, with some coming back on several occasions over the span of several years simply as a result of the trust they have in the team.

Bennett believes this trust is priceless and irreplaceable, and he intends to step back and let the team continue to work their magic. He is also open to all manner of feedback from the community, so any suggestion or concerns may be directed to his office.

Those who opt to take a look at the feedback the Dana Point auto repair shop has received will find that many already consider it to be the best in the business. Car owners will find only the best ASE Certified mechanics here (along with the best products from the industry's top manufacturers), and this typically results in highly satisfied customers.

One such customer says in their review, "I have been here many times and traveled all the way from San

Diego for them to take care of my vehicle. They have changed my oil, brakes, set me up with my RV battery and many more things. I know they are honest and very helpful. My brother is a mechanic, and he does a lot of my tough jobs on my truck. They found a problem and gave me a quote on it. I took it to my brother who agreed with what they found and said the price was right on. Being a woman and trying to find a good mechanic is hard.?

The review concludes, "They have always gone above and beyond. I have dealt with Chris on most occasions. He is very to the point and precise. He has worked with me to get me in and out of the shop as he knows the distance I travel. This is a busy shop. There are always people in and out of there, and most of them are regulars. The owner is very fair and a good guy. I always go back."

Long-time customers will also be keen to attest as to why they keep coming back. Among the reasons provided may be the following: highly competitive prices for maintenance and repairs, the shop's state-of-the-art dealer-level diagnostic equipment (which plays a significant role in improving diagnostic speeds and reducing service times), a variety of financing options that make necessary services more accessible for everyone, extended warranties, and much more. West Coast Tires & Services is also open Monday - Saturday, making them fairly easy to see over the course of the week. Where preferred, customers are encouraged to ask the team for their professional recommendations regarding potential upgrades or changes.

California residents who are concerned about the state of their vehicles are invited to contact the auto repair shop in San Juan Capistrano today for a free quote. Further details regarding the shop's full range of services can be found on the official West Coast Tire & Services website and social media spaces.
